circular economy, helping the reader create future-fit, sustainable strategies. Real examples across a range of market sectors help businesses, students and policymakers understand the theory and fast-developing practice of the circular economy. To help the reader generate ideas, *A Circular Economy Handbook for Business and Supply Chains* provides a holistic framework for the design and supply chain and supporting business models, and includes tools the reader can use to get started. Whilst growing global consumption presents fantastic business opportunities, our current linear systems (take some materials, make a product, use it and then throw it away) are not fit for purpose. The circular

economy unlocks this problem by decoupling resources from consumption. Engaged businesses are re-thinking product design, material choices, business models and supply chains. A Circular Economy Handbook for Business and Supply Chains is a must-read for anyone who wants to apply the circular economy today. Online resources now available: PowerPoint slides of figures and tables from every chapter created by the author.

Semiotics has been making progressively inroads into marketing research over the past

thirty years. Despite the amply demonstrated conceptual appeal and empirical pertinence of semiotic perspectives in various marketing research streams, spanning consumer research, brand communications, branding and consumer cultural studies, there has been a marked deficit in terms of consolidating semiotic brand-related research under a coherent disciplinary umbrella with identifiable boundaries and research agenda. The Handbook of Brand Semiotics furnishes a compass for the perplexed, a set of anchors for the inquisitive and a solid corpus for scholars, while highlighting the conceptual richness and methodological diversity of semiotic perspectives. Written by a team of expert

scholars in various semiotics and branding related fields, such as John A. Bateman, David Machin, Xavier Ruiz Collantes, Kay L. O' Halloran, Dario Mangano, George Rossolatos, Merce Oliva, Per Ledin, Gianfranco Marrone, Francesco Mangiapane, Jennie Mazur, Carlos Scolari, Ilaria Ventura, and edited by George Rossolatos, Chief Editor of the International Journal of Marketing Semiotics, the Handbook is intended as a point of reference for researchers who wish to enter the ' House of Brand Semiotics ' and explore its marvels. The Handbook of Brand Semiotics, actively geared towards an interdisciplinary dialogue between perspectives from marketing and semiotics, features the state-of-

'An Introduction to Modern Vehicle Design' provides a thorough introduction to the many aspects of passenger car design in one volume. Starting with basic principles, the author builds up analysis procedures for all major aspects of vehicle and component design. Subjects of current interest to the motor industry, such as failure prevention, designing with modern materials, ergonomics and control systems are covered in detail, and the author concludes with a discussion on the future trends in automobile design. With contributions from both academics lecturing in motor vehicle engineering and those

working in the industry, "An Introduction to Modern Vehicle Design" provides students with an excellent overview and background in the design of vehicles before they move on to specialised areas. Filling the niche between the more descriptive low level books and books which focus on specific areas of the design process, this unique volume is essential for all students of automotive engineering. Only book to cover the broad range of topics for automobile design and analysis procedures Each topic written by an expert with many years experience of the automotive industry

This manual provides an extensive overview of the importance and

use of Romance languages in the media, both in a diachronic and synchronic perspective. Its chapters discuss language in television and the new media, the language of advertising, or special cases such as translation platforms or subtitling. Separate chapters are dedicated to minority languages and smaller varieties such as Galician and Picard, and to methodological approaches such as linguistic discourse analysis and writing process research.
