A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games.

Camp Chippewa, 1962. Nelson Doughty, age thirteen, social outcast and overachiever, is the Bugler, sounding the reveille proudly each morning. Yet this particular summer marks the beginning of an uncertain and tenuous friendship with a popular boy named Jonathan. Over the years, Nelson, irrevocably scarred from the Vietnam War, becomes Scoutmaster of Camp Chippewa, while Jonathan marries, divorces, and turns his father's business into a highly profitable company. And when something unthinkable happens at a camp get-together with Nelson as Scoutmaster and Jonathan's teenage grandson and daughter-in-law as campers, the aftermath demonstrates the depths—and the limits—of Nelson's selflessness and bravery. *The Hearts of Men* is a sweeping, panoramic novel about the slippery definitions of good and evil, family and fidelity, the challenges and rewards of lifelong friendships, the bounds of morality—and redemption.

*Being Prepared, From Cub Scout to Leader* is the biography of Adrian Coles through his life in Scouting from the first moment he joined Cub Scouts to present day as a Cub Leader about to become Scout Leader.

Soon after the beginning of the 'Great War', Sir Robert Baden-Powell published his 9th military title, *Quick Training For War*, as his personal contribution to the British war effort. Having previously retired from service in 1910 to promote the Scouting movement, this short manual promoted his ideas for preparing new recruits to be smart and efficient soldiers. In contrast to the long established British army training regime of pomp, stark discipline and 'marching round the square' drill; he urges instead a focus on the "Four C's" : Courage, Common Sense, Cunning, Cheerfulness as a way of more realistically training recruits to better meet the rigors and reality of modern combat. Drawing heavily on his own combat experiences in India and Africa, he outlines a clear and simple course of study to help the new soldier

develop his field skills and spirit. His noting of the superior Boer use of earthworks/trench fortifications certainly seem to have been proved topical and forward-thinking considering how trench warfare became the defining characteristic of the World War One battlefield. Each chapter includes many personal anecdotes to illustrate his theories on best training practices. This booklet is well written and interesting for any student of military history, particularly those with an interest in how war-fighting practices and mindset changed radically from the early 1900's and forward. It features 18 illustrations by Baden-Powell as well. It makes a great companion read to his 1899 book on reconnaissance training, *Aids to Scouting*. (also available at Google Play)

Chico A.Q. Arenas begins his riveting memoir *Before Elvis* with the story of his father's family immigrating to America from Cuba in 1906. He relates in some detail how his paternal relatives settled into life in their new country. A professional musician, the author shares how he came to love music and learned to perform many varieties of music during his career. His adventures include the interesting acquaintances he made as well as the many places he visited while performing with a popular music ensemble. His book details "my love for life. My love for friendship and family. My love for music. The most important people in my life and the spiritual connection with each one." From 1906 to present day, this stunning book captures over a century of one family's Cuban history that is still in the making.

"This book has everything in it to help you complete the requirements for the Den Chief Service Award."--Page 4 of cover.
