An extraordinary reproduction of the original working manuscript of Alcoholics Anonymous, with essays and notes by a panel of celebrated AA historians.The Book That Started It All offers fresh insights into the history and foundation of the revolutionary Alcoholics Anonymous program. Reproduced in this elegant gift edition with essays and notes by a panel of celebrated AA historians, the original working manuscript is the missing link in our understanding of what transpired between AA founder Bill Wilson's first draft of Alcoholics Anonymous and the first published edition. In January 1939, Wilson and other AA founders distributed 400 copies of his typescript to everyone they could think of "who might be concerned with the problem of alcoholism," to test out the program. As the loan copies were returned, suggestions for revision were considered and written out in colored pencil on one master copy that was eventually submitted for publication.The many changes made in black, green, and red on page after page are shown here in their original form, revealing the opinions, debates, and discussions that went into making the Big Book.

The disease of alcohol and drug addiction affects millions of people—some of whom are willing to acknowledge their addiction and therefore seek recovery. The nature of the disease is so crippling that the individual has to either find recovery or else be left with two dreadful options: physical and mental instability or death. ABC Club—End of an Era describes the history of a safe place where recovering addicts and alcoholics lived while pursuing sobriety, and it focuses on the many interactions and idiosyncrasies of each personality with interviews and other first-hand accounts. Two people operated the treatment center for over thirty-five years, Danny and Helen Leahy—a crusty, down to earth, no-nonsense man and a beautiful, soft, warm and gentle woman. The result was that these two very different people with their different personalities were able to have countless numbers of people utilize recovery and thus learn about a new way of life at the ABC Club.

And then he feels that perhaps there isn't.

This is a book of reflections by A.A. members for A.A. members. It was first published in 1990 to fulfill a long-felt need within the Fellowship for a collection of reflections that moves through the calendar year—one day at a time. Each page contains a reflection on a quotation from A.A. Conference-approved literature, such as Alcoholics Anonymous, Twelve Steps and Twelve Traditions, As Bill Sees It and other books. These reflections were submitted by members of the A.A. Fellowship who were not professional writers, nor did they speak for A.A. but only for themselves, from their own experiences in sobriety. Thus the book offers sharing, day by day, from a broad cross section of members, which focuses on the Three Legacies of Alcoholics Anonymous: Recovery, Unity and Service. Daily Reflections has proved to be a popular book that aids individuals in their practice of daily meditation and provides inspiration to group discussions even as it presents an introduction for some to A.A. literature as a whole.
