EVERYTHING THERE IS TO KNOW ABOUT SURVIVING IN THE WILD " During my first years of learning survival I took a course in survival and primitive earth skills taught by John and Geri McPherson. I was excited by their unbelievable passion and their intrinsic understanding of survival. Their teachings took me from understanding basic skills to a full-blown love for the ancient technologies that humans developed to survive. John and Geri are the real deal. They don ' t just teach this stuff, they live it. I loved the experience with them so much I came back a second time a few years later. Now that I have traveled the world as Survivorman—experiencing and filming survival in every ecosystem there is—I can sit back and watch my shows and see John and Geri ' s teachings peek through in every situation. I have been able to understand survival because of John and Geri, and can highly recommend this book. Modern challenges have left many of us wondering what on earth we would do if everything came to a crashing halt. What if the entire food chain collapsed, and you had access to nothing? What if a natural disaster struck and you had to leave your home? What if you experienced some form of a serious emergency that needed to be addressed right then and there? Could you do it? While our modern systems are wonderful for helping our day to day life along, they have left many painfully unprepared in the event that something goes wrong. Once you find yourself launched into a survival setting, everything changes. Modern conveniences like grocery stores and even things you probably don't think about like sewage, are not always available. You may find yourself having to make do in the wilderness, and find a new way of survival, at least until the system is restored. If it gets restored.
