Abriendo Puertas, Cerrando Heridas (Opening Doors, Closing Wounds): Latinas/os Finding Work-Life Balance in Academia is the newest book in the series on balancing work and life in the academy from Information Age Publishing. This volume focuses on the experiences of Latina/o students, professors, and staff/administrators in higher education and documents their testimonios of achieving a sense of balance between their personal and professional lives. In the face of many challenges they are scattered across the country, are often working in isolation of each other and must find ways to develop their own networks, support structures, and spaces where they can share their wisdom, strategize, and forge alliances to ensure collective The book focuses on Latinas/os in colleges of education, since many of them carry the important mission to prepare new teachers, and research new pedagogies that have the power of improving and transforming education. Following the format of the work-life balance book series, this volume contains autoethnographical testimonios in its methodological approach. This volume addresses three very important guiding questions (1) What are the existing structures that isolate/discriminate against Latinas/os in higher education? (2) How can Latinas/os disrupt these to achieve work-life balance? And, (3) Based on their experiences, what are the transformative ideologies regarding Latinas/os seeking work-life balance?

The career of Spain's celebrated author Carmen Martín Gaité spanned the Spanish Civil War, Franco's dictatorship, and the nation's transition to democracy. She wrote fiction, poetry, drama, screenplays for television and film, and books of literary and cultural analysis. The only person to win Spain's National Prize for Literature (Premio Nacional de las Letras) twice, Martín Gaité explored and blended a range of genres, from social realism to the fantastic, as she took up issues of gender, class, economics, and aesthetics in a time of political upheaval. Part 1 ("Materials") of this volume provides resources for instructors and a literary-historical chronology. The essays in part 2 ("Approaches") consider Martín Gaité's best-known novel, *The Back Room* (El cuarto de atrás), and other works from various perspectives: narratological, feminist, sociocultural, stylistic. In an appendix, the volume editor, who was a friend of the author, provides a new translation of Martín Gaité's only autobiographical sketch, alongside the original Spanish.

La idea de situar a la escuela como motor social, hace recaer sobre la misma una responsabilidad que debe ser asumida con rigor y con valentía por parte de los distintos sectores que conviven en el contexto escolar. La Inclusión es tarea de todos, precisamente una de las claves de este proceso se sitúa en lo coral que deben ser todas las decisiones y

acciones orientadas a conseguir y mantener contextos inclusivos. De ahí que palabras como colaboración, convivencia, reconocimiento, corresponsabilidad, son ideas que definen el proceso, siempre en marcha, siempre inacabado, hacia la inclusión. Desde el mismo momento que pensamos que hay personas o grupos que pueden ser excluidos, discriminados, que desde parámetros de justicia social es necesario orientar acciones para evitar esa segregación, estamos dando el primer paso hacia la inclusión. Si solo nos planteamos la inclusión como una meta, si pensamos en la dificultad de conseguir los recursos y que por ello no podemos avanzar, si nos quedamos en la idea que la inclusión es costosa desde el punto de vista económico. Estaremos quedándonos en las puertas. Desarrollar prácticas inclusivas, supone creatividad, iniciativa, empatía, confianza, cooperación, formación. El recurso principal es la propia persona. Transformar la realidad educativa, tiene un primer paso: transformar las “cabezas” de las personas implicadas: profesorado, familias, agentes sociales e instituciones. Sin olvidar en ningún momento la participación y el protagonismo del alumnado. La realidad está ahí, no es solo un bonito sueño. Basta con extender el brazo para alcanzarla. Pero ¡Alarga el brazo de una vez! No esperes que llegue sin tu participación, sin tu esfuerzo, sin tu implicación, sin tu compromiso. Y sí, claro está, también con tus sueños y tu esperanza. Este libro pretende acercarse a la realidad de la inclusión, abriendo puertas. Para ello desde un primer bloque de corte más reflexivo, en los siguientes se afrontarán realidades inclusivas desde distintos focos: la diversidad cultural, la diversidad funcional. Y, en este mundo marcado por las tecnologías, no podemos dejar de lado hablar sobre la aportación desde ese ámbito al proceso inclusivo.

In Meg Medina’s follow-up to her Newbery Medal–winning novel, *Merci* takes on seventh grade, with all its travails of friendship, family, love—and finding your rhythm. Seventh grade is going to be a real trial for Merci Suárez. For science she’s got no-nonsense Mr. Ellis, who expects her to be as smart as her brother, Roli. She’s been assigned to co-manage the tiny school store with Wilson Bellevue, a boy she barely knows, but whom she might actually like. And she’s tangling again with classmate Edna Santos, who is bossier and more obnoxious than ever now that she is in charge of the annual Heart Ball. One thing is for sure, though: Merci Suárez can’t dance—not at the Heart Ball or anywhere else. Dancing makes her almost as queasy as love does, especially now that Tía Inés, her merengue-teaching aunt, has a new man in her life. Unfortunately, Merci can’t seem to avoid love or dance for very long. She used to talk about everything with her grandfather, Lolo, but with his Alzheimer’s getting worse each day, whom can she trust to help her make sense of all the new things happening in her life? The Suárez family is back in a touching, funny story about growing up and discovering love’s many forms, including how we learn to love and believe in ourselves.

In March of 2020, our daily lives were upended by the COVID pandemic and subsequent school closures. With work and school shifting online, a new and ongoing set of demands has been placed on parents as school moved to online, virtual and hybrid models of learning. Families need to balance professional responsibilities with parenting and supporting their children’s education. As education professors, we find ourselves in a particular position as our expertise collides with the reality of schooling our own children in our homes during a global pandemic. This book focuses on the experiences of education faculty who navigate this relationship as pandemic professionals and pandemic parents. In this collection of personal essays, we explore parenting in the pandemic among education professors. Through our stories, we share our perspectives on this moment of upheaval, as we find ourselves confronting practical (and impractical) aspects of long held theories about what school could

be, seeing up close and personally the pedagogy our children endure online, watching education policy go awry in our own living rooms (and kitchens and bathrooms), making high-stakes decisions about our children's (and other children's) access to opportunity, and trying to maintain our careers at the same time. In this collision of personal and professional identities, we find ourselves reflecting on fundamental questions about the purpose and design of schooling, the value of our work as education professors, and the precious relationships we hope to maintain with our children through this difficult time. Praise for Parenting in the Pandemic "Lowenhaupt and Theoharis have curated a magnificent collection of essays that captures the hopes, fears, tensions, and possibilities of parenting in a time of crisis. A gift to parents and educators everywhere as we continue to process and reflect on what the pandemic has taught us about what it means to educate others, and perhaps through a renewed imagination, our very own children." - Sonya Douglass Horsford, Teachers College, Columbia University "In this powerful collection of essays, we have a rare window into how the personal and professional worlds of academics collided during the COVID-19 pandemic. What emerges from these reflections is an intimate portrait of the longstanding tensions in our lives as public intellectuals and parents that have long burned as embers, but are now set ablaze by the public health, economic, and educational crisis we have lived through during the last year. Reading these essays will help us to see questions of education policy and practice in a new, more personal light." - Matthew Kraft, Brown University

Improving the educational success of the children of Mexican immigrants is crucial to the future prospects of these children as well as to the American population at large. This book documents how various aspects of these children's lives help or hinder their learning in elementary school.

Hispanics and the Future of America presents details of the complex story of a population that varies in many dimensions, including national origin, immigration status, and generation. The papers in this volume draw on a wide variety of data sources to describe the contours of this population, from the perspectives of history, demography, geography, education, family, employment, economic well-being, health, and political engagement. They provide a rich source of information for researchers, policy makers, and others who want to better understand the fast-growing and diverse population that we call "Hispanic." The current period is a critical one for getting a better understanding of how Hispanics are being shaped by the U.S. experience. This will, in turn, affect the United States and the contours of the Hispanic future remain uncertain. The uncertainties include such issues as whether Hispanics, especially immigrants, improve their educational attainment and fluency in English and thereby improve their economic position; whether growing numbers of foreign-born Hispanics become citizens and achieve empowerment at the ballot box and through elected office; whether impending health problems are successfully averted; and whether Hispanics' geographic dispersal accelerates their spatial and social integration. The papers in this volume provide invaluable information to explore these issues.
