~~New Alfa Romeo Giulia GTA | Sports car | Alfa Romeo UK~~
A Brief History of the Alfa Romeo Sprint GT Veloce
Giusiario designed the svelte body and Alfa Romeo created a shortened version of the platform used on the four-door Giulia saloon. It was fitted with the legendary "Bialbero" Alfa Romeo Twin Cam engine, an all-aluminum alloy unit with double overhead cams, a cross-flow head, and two valves per cylinder.

1968 Alfa Romeo Giulia GTV A delightfully charismatic car that proved a highly successful seller, the Alfa Romeo Giulia replaced the outgoing Giulietta beginning in 1962. Alfa Romeo produced the Giulia in myriad configurations, some drastically different from other models in the series but all with a unifying thread of polished driving fun.

A small investment in this book could save you a fortune. With the aid of this book's step-by-step expert guidance, you'll discover all the information you need to know about the Alfa Romeo Giulia GT Coupe you want to buy. Unique point system will help you to place the car's value in relation to condition. This is an important investment-don't buy a car without this book's help.

A century of history constitutes an important goal and is even more significant if a prestigious marque like Alfa Romeo is celebrating it. To pay due tribute to such a significant event - and not only in automobile history - is a unique and exclusive book of which only 999 copies have been printed, all numbered and enclosed in an elegant slipcase that carries the famous metal emblem of the centenarian on its front. Apart from its format (the volume measures ...), the refined binding and the paper on which it is printed, this official book prepared in collaboration with Alfa Romeo and destined to celebrate this historic event, is an ambitious project especially due to its contents and illustrations, all unpublished and which come from the priceless Arese archives.

The Autodelta story, Alfa Romeo's more or less official racing department between 1963 and 1983. A tale of unforgettable victories, of two titles conquered in the World Championship for Marques, but also one of scalding defeats. Great names in the history of motorsport raced in the colours of the team born in the province of Udine and nurtured at Settimo Milanese including Ignazio Giunti, Nino Vaccarella, Andrea de Adamich and Toine Hezemans. All drivers who competed - under the aegis of the incomparable Carlo Chiti - at the wheel of unforgettable cars such as the Giulia TZ, the GTA, the 33 in its various guises, the Alfetta GT rally cars and naturally the less successful Formula 1 machines. All this is revived in a book constructed around painstaking research and illustrated with hundreds of photographs, many of which previously unpublished

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series.Will appeal to Alfa Romeo and automotive enthusiasts.The history and design process are examined along with an in-depth guide to each of the model variants produced.The cars' current position in the classic car market is considered.Superbly illustrated with 240 colour photographs.Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

Built in almost four hundred thousand units between 1977 and 1985, the "wedge" Giulietta, also known as "116" by Alfa Romeo enthusiasts, is a car that's fondly remembered but hadn't yet had a title entirely dedicated to it. Matteo Licata, Italian car designer and automotive historian, finally tells the story of this unfairly underrated Alfa Romeo model.

For almost a century, Carrozzeria Bertone has created some of the most sensational models in automotive history. The extraordinary concept cars such as the B.A.T.Mobiles, the Testudo, the Canguro, the Carabo and the futuristic Stratos - to mention but a few - were joined by iconic sports cars, such as the numerous Lamborghini Miuras, Marzals, Espadas and Countachs and the Alfa Romeo Montreal, as well as more "down-to-earth" cars that went into mass production. This last category features the Alfa Romeo Giulietta Sprint, the Fiat X1/9 and the Nuova Mini Innocenti along with the many Citroëns designed between the late 1980s and early 2000s. These are just a few of the models featured in the extensive and varied Bertone catalogue to which great designers of the calibre of Giorgetto Giugiaro and Marcello Gandini have contributed. In-depth historical contextualization by Luciano Greggio, a great connoisseur of the Bertone marque, and a magnificent collection of photographs make up this latest volume in the series Masterpieces of Style.

An event as significant for Alfa Romeo enthusiasts as the reopening of the marque's historic museum at Arese - held on 24 June 2015, the day on which Alfa celebrates its 105th anniversary - could hardly not be celebrated with a book. The official catalogue of the new museum represents an opportunity to review the history of the marque and above all to accompany the reader/visitor around the new exhibition layout in which the cars have been thematically grouped and subdivided. The glorious racing cars (from the P2 to the 33 in all their variants, through to the less successful cars that competed in F1) are brought together under the section VELOCITÀ - introduced by Alfa Romeo driver Nino Vaccarella, while cars such as the 1759, 8C 2900, 6C 2500, 1900, Giulietta and Alfetta, along with the most recent production models, illustrate the most important episodes in the Biscione's industrial history in the TIMELINE section - introduced by American journalist Nick Czap. The section BELLEZZA - introduced by designer Lorenzo Ramaciotti, head of Style for the Fiat Group for years - focuses on the undisputed protagonists being cars such as the 33 Stradale, the Carabo and the Nuvola, milestones in the evolution of automotive styling. A specific chapter also features all those models that do not appear in the exhibition. The catalogue is therefore an indispensable instrument for all those visiting this authentic temple of history, technology and culture.
