"A complete research-based, K-5 mathematics program integrating math, science and language arts. [The program] embodies the NCTM Principles and standards for school mathematics and is based on the ideas that mathematics is best learned by solving problems in real-world contexts and that a curriculum should balance conceptual understanding and procedural skill"--P. 4 of cover.

Spectrum(R) Word Problems for grade 6, includes focused practice for essential math skills. --Skills include: --\*Real world applications --\*Multi-step word problems --\*Fractions, decimals, and percents --\*Metric and customary measurement --\*Graphs, probability, and statistics --\*Geometry --Spectrum(R) Word Problems workbooks supplement classroom work and proficiency test preparation. The workbooks provide examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards, making it a perfect supplement at home or school.

Enjoy this story-based course featuring Claire and Micah, designed to engage your young learner and strengthen their reading and writing skills. Real world examples and applications are the focus as they practice reading, apply grammatical skills, and increase their vocabulary. Complete with helpful illustrations and guides, this book will teach your student paragraph structure, compound words, contractions, sentence combining, helping verbs, prepositions, and more! This language arts series adapts Charlotte Mason ideas for the modern homeschool student, complete with character-building themes. Each quarter has five stories, two picture studies (one of which is Bible-based), and two poems (one of which is a Psalm). Using the spelling words and the Dictionary Worksheets, students will create their very own dictionary as they move week by week through the material. Develops reading and narration skills as well as writing mastery of multisentence paragraphs. Required Course Materials: This course has an integrated reading component that uses 101 Favorite Stories from the Bible, also available from Master Books.

Homework Helpers: Physics is the latest book in the popular series that has been designed to help students master the material and tackle the tests. It will help any student unravel the formulas that describe the world around him or her. Each lesson is written in clear, easy-to-understand language, and supported with review questions. Answers and detailed explanations are found at the end of each chapter. Homework Helpers: Physics covers all of the topics included in a typical one-year physics curriculum, including: Straight-line kinematics, free-fall, and projectile motion. Forces, friction, and motion on an incline. Electrostatics, electricity, and magnetism. Waves, light, and optics. Nuclear reactions. The Homework Helpers Series is an excellent review for any standardized Physics test, and is invaluable in providing support and guidance throughout a year's course of study.
