The city of God we speak of is the same to which testimony is borne by that Scripture, which excels all the writings of all nations by its divine authority, and has brought under its influence all kinds of minds, and this not by a casual intellectual movement, but obviously by an express providential arrangement.

Augustine of Hippo was Bishop of Hippo Regius (present-day Annaba, Algeria). He was a Latin-speaking philosopher and theologian who lived in the Roman Africa Province. His writings were very influential in the development of Western Christianity. According to his contemporary, Jerome, Augustine "established anew the ancient Faith." This classic work, The City of God, was translated into several languages and played an important role in the spreading of the ideals of Eastern and Western Christianity.

City of God is an enduringly significant work in the history of Christian thought, by one of its central figures. Written as an eloquent defence of the faith at a time when the Roman Empire was on the brink of collapse, this great theological and philosophical work by St Augustine, bishop of Hippo, examines the ancient pagan religions of Rome, the arguments of the Greek philosophers and the revelations of the Bible. Pointing the way forward to a citizenship that transcends worldly politics and will last for eternity, City of God is one of the most influential documents in the development of Christianity. Translated with Notes by Henry Bettenson with an Introduction by G. R. Evans

Augustine's City of God has profoundly influenced the course of Western political philosophy, but there are few guides to its labyrinthine argumentation that hold together the delicate interplay of religion and philosophy in Augustine's thought. The essays in this volume offer a rich examination of those themes, using the central, contested distinction between a heavenly city on earthly pilgrimage and an earthly city bound for perdition to elaborate aspects of Augustine's political and moral vision. Topics discussed include Augustine's notion of the secular, his critique of pagan virtue, his departure from classical eudaimonism, his mythology of sin, his dystopian politics, his surprising attention to female bodies, his moral psychology, his valorisation of love, his critique of empire and his conception of a Christian philosophy. Together the

essays advance our understanding of Augustine's most influential work and provide a rich overview of Augustinian political theology and its philosophical implications.

No book except the Bible itself had a greater influence on the Middle Ages than City of God. Since medieval Europe was the cradle of today's Western civilization, this work by consequence is vital for understanding our world and how it came into being. Saint Augustine is often regarded as the most influential Christian thinker after Saint Paul, and City of God is his masterpiece, a cast synthesis of religious and secular knowledge. It began as a reply to the charge that Christian otherworldliness was causing the decline of the Roman Empire. Augustine produced a wealth of evidence to prove that paganism bore within itself the seeds of its own destruction. Then he proceeded to his larger theme, a cosmic interpretation of in terms of the struggle between good and evil. The City of God in conflict with the Earthly City or the City of the Devil. This, the first serious attempt at a philosophy of history, was to have incalculable influence in forming the Western mind on the relations of church and state, and on the Christian's place in the temporal order. The original City of God contained twenty-two books and fills three regular-sized volumes. This edition has been skillfully abridged for the intelligent general reader by Vernon J. Bourke, author of Augustine's Quest for Wisdom, making the heart of this monumental work available to a wide audience.

The City of God is the most influential of Augustine's works, which played a decisive role in the formation of the Christian West. This book is the first comprehensive modern guide to it in any language. The City of God's scope embodies cosmology, psychology, political thought, anti-pagan polemic, Christian apologetic, theory of history, biblical interpretation, and apocalyptic themes. This book is, therefore, at once about a single masterpiece and at the same time surveys Augustine's developing views through the whole range of his thought. The book is written in the form of a detailed running commentary on each part of the work. Further chapters elucidate the early fifth-century political, social, historical, and literary background, the work's sources, and its place in Augustine's writings. The book should prove of value to Augustine's wide readership among students of late antiquity, theologians, philosophers, medievalists, Renaissance scholars, and historians of art and iconography.
