Published in 1926 to explosive acclaim, *The Sun Also Rises* stands as perhaps the most impressive first novel ever written by an American writer. A roman à clef about a group of American and English expatriates on an excursion from Paris's Left Bank to Pamplona for the July fiesta and its climactic bull fight, a journey from the center of a civilization spiritually bankrupted by the First World War to a vital, God-haunted world in which faith and honor have yet to lose their currency, the novel captured for the generation that would come to be called " Lost " the spirit of its age, and marked Ernest Hemingway as the preeminent writer of his time.

*Walden Pond. The Grand Canyon. Yosemite National Park.* Throughout the twentieth century, photographers and filmmakers created unforgettable images of these and other American natural treasures. Many of these images, including the work of Ansel Adams, continue to occupy a prominent place in the American imagination. Making these representations, though, was more than a purely aesthetic project. In fact, portraying majestic scenes and threatened places galvanized concern for the environment and its protection. *Natural Visions* documents through images the history of environmental reform from the Progressive era to the first Earth Day celebration in 1970, showing the crucial role the camera played in the development of the conservation movement. In *Natural Visions*, Finis Dunaway tells the story of how visual imagery—such as wilderness photographs, New Deal documentary films, and Sierra Club coffee-table books—shaped modern perceptions of the natural world. By examining the relationship between the camera and environmental politics through detailed studies of key artists and activists, Dunaway captures the emotional and spiritual meaning that became associated with the American landscape. Throughout the book, he reveals how photographers and filmmakers adapted longstanding traditions in American culture—the Puritan jeremiad, the romantic sublime, and the frontier myth—to literally picture nature as a place of grace for the individual and the nation. Beautifully illustrated with photographs by Ansel Adams, Eliot Porter, and a host of other artists, *Natural Visions* will appeal to a wide range of readers interested in American cultural history, the visual arts, and environmentalism.

In the summer Charlie and her grandmother dance in the light of the moon, and when Charlie returns to the city her grandmother assures her that when they are apart Charlie just needs to look at the moon, and they will be united together in its light, forever.

#1 New York Times Best Seller! "Eleanor & Park reminded me not just what it's like to be young and in love with a girl, but also what it's like to be young and in love with a book."-John Green, The New York Times Book Review Bono met his wife in high school, Park says. So did Jerry Lee Lewis, Eleanor answers. I'm not kidding, he says. You should be, she says, we're 16. What about Romeo and Juliet? Shallow, confused, then dead. I love you, Park says. Wherefore art thou, Eleanor answers. I'm not kidding, he says. You should be. An "innovative" (The New Yorker) retelling of the story of Dracula. Told with the flourish and poise of a talented storyteller, Kostova turns the age-old tale into a compelling "late night page-turner" (San Francisco Chronicle) When a young woman discovers a cache of ancient letters, she is thrown into the turbulent history of her parents' dark pasts. Uncovering a labyrinthine trail of clues, she begins to reconstruct a staggering history of deceit and violence. Debut novelist Elizabeth Kostova creates an adventure of monumental proportions, a relentless tale that blends fact and fantasy, history and the present, with an assurance that is almost unbearably suspenseful and utterly unforgettable.
