excellent course review, with illustrations, review questions, and high-yield case study sections. This edition features 70 new images. High-Yield™ means exactly that...readers reap maximum benefits from very focused study.

High-Yield™ Comprehensive USMLE Step 1 Review is a very concise study tool for the USMLE Step 1 exam. Written by best-selling Board review author Barbara Fadem and a team of expert contributors and experienced review authors, the book provides a high-yield but comprehensive review of the content most likely to be tested on the USMLE. Tables and illustrations throughout the text help summarize difficult concepts. Extremely concise and designed for rapid study, High-Yield™ Comprehensive USMLE Step 1 Review is perfect for last-minute review or a quick brush-up anytime.

Hardcore Neuroscience focuses on the essentials of neuroscience, as an ultra-high yield Step 1 review and an ideal course supplement. Figures and images help students visualize key concepts, and the concise, outline format allows rapid access to vital information. Critical "hardcore" facts are highlighted in the text, emphasizing the most heavily tested information for review.

If you are wondering how the pathophysiology principles you are studying will apply to real life patients, Blueprints Notes & Cases—Pathophysiology: Renal, Hematology and Oncology has just what you need—basic science concepts tied to clinical cases. This book offers high-yield, concise basic science content presented in a logical template. Each topic features a case presentation followed by thought questions and a basic science review. Thumbnails and key points provide a quick review of the essential information. Multiple-choice questions at the end of each case allow you to test your knowledge.
