Blair's standing as Prime Minister the controversy over fox hunting, the Gambling Act and 24-hour drinking the importance of China on the British arena. Established and authoritative, this volume is a crucial text for all students of contemporary British history and politics.

This book offers a comprehensive overview of Britain's development since the end of the Second World War. It comprises 23 contributions from leading authorities and newer scholars, set in context with a foreword by Raymond Seitz. A comprehensive and fascinating introduction to Britain from the end of the Second World War Draws together the themes that have dominated discussion amongst scholars and media commentators The chapters are set in context with a foreword by Raymond Seitz Covers topics such as foreign policy, political parties, the media, race relations, women and social change, science and IT, culture, industrial relations, the welfare state, and political and economic issues in Scotland, Wales and Northern Ireland

This informative book examines the changing relationship between the trade unions and British governments from the making of the social settlement of 1944-1945 to the post-Thatcherite era of the Conservative political domination of the early 1990s.

Anthony Forster argues that euroscepticism, in addition to being a political stance, displays the seeds of becoming a new faith. Through a detailed analysis of British post-war politics, he shows the development of a core set of beliefs, a history of persecution, displays of moral rectitude in opposing Europe and the power of scepticism to change existing beliefs. This challenging new history of euroscepticism will be a valuable resource for undergraduate students of politics and European studies.

Using a unique dataset spanning fifty years of policy-making in
