Orientalism refers to the imitation of aspects of Eastern cultures in the West, and was devised in order to have authority over the Orient. The concept of Re-Orientalism maintains the divide between the Orient and the West. However, where Orientalism is based on how the West constructs the East, Re-Orientalism is grounded on how the cultural East comes to terms with an orientalised East. This book explores various new forms, objects and modes of circulation that sustain this renovated form of Orientalism in South Asian culture. The contributors identify and engage with recent debates about postcolonial South Asian identity politics, discussing a range of different texts and films such as The White Tiger, Bride & Prejudice and Kama Sutra: A Tale of Love. Providing new theoretical insights from the areas of literature, film studies and cultural and discourse analysis, this book is an stimulating read for students and scholars interested in South Asian culture, postcolonial studies and identity politics.

This book offers information on the unique ways he has built relationships with Islamic clerics, militia commanders, and tribal leaders even as he was dodging shootouts with feuding Afghan warlords.

The ape-human hybrid secret agent and QueenÖs assassin, possessed of a deadly prehensile tail and 'the strength of twelve menÖ, made his debut in the pulps of the 1930s and enjoyed a brief revival in the late 1960s and '70s. But can it be that the fiction is closer to historic fact than was ever previously guessed? Now a series of tales, told in hand-written journals and reported first-hand by those that knew him, reveal Mono as a dual-natured and conflicted adventurer ð savage and noble; civilized, but ultimately untameable.

How can history be harnessed to improvements in literacy and numeracy? What should the primary history curriculum contain? How can IT secure easier access to historical information and evidence?
