Cessna citation 500 eagle b|

The Cessna Citation family is Cessna's business jets line, forming the largest business jet fleet. The first Citation was put into service in 1972 and more than 35 million flight hours have been logged since. Fifty years after the first flight, more than 7,500 Citations have been delivered. It started with the small Citation I prototype flying on September 15, 1969, and produced until 1985, developed into the 1978-2006 Citation II/Bravo, the 1989-2011 Citation V/Ultra/Encore and the CitationJet

The rainy season, terrain, and financial hardships have made the construction of highways and railroads nearly impossible in many parts of Africa. This lack of modern infrastructure has been overcome in some part by the development of air transportation. Hundreds of carriers--both small and large, government owned and private--have connected all parts of the continent. Together, they have had a tremendous impact on the African economy and the people. Country-by-country, this comprehensive reference work provides brief histories of over 700 airlines in 54 African nations. Each entry has the years of operation of the carrier, along with information on its origin, growth, and route structure. Aircraft usage, including registration numbers and nicknames, is covered in many cases. Any crashes involving aircraft in the carrier's fleet are also noted. An appendix gives the location of all major African airports.

A history of Cessna aircraft. From their beginning to the present day, as such. A wide variety of aircraft with details on their performance, dimensions, weights, construction, power plants, first flights and other relevant details.
