chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Here is a brisk, accessible, and vivid introduction to arguably the most important event in the history of the United States--the American Revolution. Between 1760 and 1800, the American people cast off British rule to create a new nation and a radically new form of government based on the idea that people have the right to govern themselves. In this lively account, Robert Allison provides a cohesive synthesis of the military, diplomatic, political, social, and intellectual aspects of the Revolution, paying special attention to the Revolution's causes and consequences. The book recreates the tumultuous events of the 1760s and 1770s that led to revolution, such as the Boston Massacre and the Boston Tea Party, as well as the role the Sons of Liberty played in turning resistance into full-scale revolt. Allison explains how and why Americans changed their ideas of government and society so profoundly in these years and how the War for Independence was fought and won. He highlights the major battles and commanders on both sides--with a particular focus on George Washington and the extraordinary strategies he developed to defeat Britain's superior forces--as well as the impact of French military support on the American cause. In the final chapter, Allison explores the aftermath of the American Revolution: how the newly independent states created governments based on the principles for which they had fought, and how those principles challenged their own institutions, such as slavery, in the new republic. He considers as well the Revolution's legacy, the many ways its essential ideals influenced other struggles against oppressive power or colonial systems in France, Latin America, and Asia. Sharply written and highly readable, *The American Revolution* offers the perfect introduction to this seminal event in American history.

Discover the fascinating stories and history of the American Revolutionary War. With twenty-two chapters, this unique compilation provides a stunning, richly detailed overview of the military strategies, campaigns, battles, and personalities of the war. Because of the enormous size of this encyclopedia, it has been split into two parts for the paperback version. Part One Contents: Chapter 1 - Stories From The American Revolution \* Chapter 2 - Battles of the American Revolution \* Chapter 3 - The Revolution: Day By Day \* Chapter 4 - From Gentility to Atrocity: The Continental Army's Ways of War \* Chapter 5 - The American Revolution: Basics \* Chapter 6 - The United States Army and the Forging of a Nation \* Chapter 7 - Timeline of the American Revolution \* Chapter 8 - Supplying Washington's Army Part Two Contents: Chapter 8 - Supplying Washington's Army (Concluding sections) \* Chapter 9 - Birth of the Navy, John Paul Jones, Vessels of the Continental Navy \* Chapter 10 - Army NCO History: American Revolution \* Chapter 11 - Intelligence and the Revolutionary War \* Chapter 12 - Intelligence in the War of Independence \* Chapter 13 - Thomas Knowlton and His Rangers, The Taproot of U.S. Army Intelligence \* Chapter 14 - Rangers in Colonial and Revolutionary America \*

Chapter 15 - Training the Army, The Musket Drill \* Chapter 16 - The Virginia Campaign and the Blockade and Siege of Yorktown, French Participation in the American Revolution \* Chapter 17 - The Battle of Camden, South Carolina \* Chapter 18 - The Battle of Kings Mountain and the Battle of the Cowpens, South Carolina \* Chapter 19 - The British Campaign for Philadelphia and the Occupation of Valley Forge in 1777 \* Chapter 20 - Valley Forge History \* Chapter 21 - Tolerably Comfortable: A Field Trial of a Recreated Soldier Cabin at Valley Forge \* Chapter 22 - Bibliography of The American Revolution: Military History

The encyclopedia opens with a basic introduction, *Stories from the American Revolution*, providing a capsule history of the war from protests in 1763 to the end game at Yorktown and the Treaty of Paris. There is a discussion of African-Americans, American Indians, privateers, and the role of religion in the Revolutionary Period. There are biographies of General George Washington, Nathanael Greene, Salem Poor, Captain John Paul Jones, John Adams, Haym Salomon, and Thomas Paine. The second chapter gives a good overview of the major battles of the revolution. Chapter Three provides a very thorough day-by-day overview through 1783. The next chapter is an essay about the continental army's ways of war. Chapter Five discusses the factors contributing to the success of the American colonies as they revolted against British rule. The following chapter by the U.S. Army is a detailed account of the Army in the forging of a nation, beginning with the European heritage of the colonies. A major section provides a timeline of the revolution with numerous original document transcriptions, placing each text in the context of its history. It gives extraordinary contemporaneous insight into the thoughts and plans of key players in the drama, including Washington. *Supplying Washington's Army* is the next section of this incredible encyclopedia, answering the question of how the soldiers were clothed and armed and why there was such a shortage of provisions. The role of the first American Navy, and Captain John Paul Jones, is covered in the next chapter, which includes a full list of vessels of the Continental Navy. The history of the U.S. Army noncommissioned officer (NCO), dating back to 1775 with the birth of the Continental Army, is discussed in the next chapter. There are four chapters on intelligence, including the role of Army rangers and Thomas Knowlton. A brief chapter describes the musket drill. Army-supplied histories of four major battles provide vivid accounts: Camden, King's Mountain, Philadelphia, and the Virginia Campaign.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

This document is part of a series of units in United States history. It is designed for teachers to use in teaching colonial history and the American Revolution in greater depth than that provided in many textbooks. The unit contains 16 chapters, the first of which explains the unit's focus on four kinds of questions of interest to historians. These questions are: (1) contextual questions, (2) factual questions, (3) moral or value questions, and (4) questions of explanation. Chapters 2-4 look primarily at contextual questions, introducing students to the social, political,

economic, and ideological settings of the Revolution. The central section of the unit, chapters 5-15, is concerned with both factual and moral or value questions. Students not only learn about the events that led up to the Revolution, they also compare conflicting accounts of these events. They learn a three-criterion test for determining whether specific acts of protest are justified and apply this test to a number of examples of colonial protest. A central activity in this portion of the unit is reenactment of the trial of the British soldiers involved in the Boston Massacre. Following this experience, students examine the similarities and differences between the Boston Massacre and the confrontation between Vietnam war protesters and a contingent of the National Guard at Kent State University 200 years later. Other major activities in this portion of the unit include analyzing the Declaration of Independence and debating whether the Revolution was justified. The final chapter invites students to act as historians, choosing among three schools of historical interpretation and writing essays detailing how the interpretation explains the Revolution's causes. (DK)

When the Revolutionary War began, the odds of a united, continental effort to resist the British seemed nearly impossible. Few on either side of the Atlantic expected thirteen colonies to stick together in a war against their cultural cousins. In this pathbreaking book, Robert Parkinson argues that to unify the patriot side, political and communications leaders linked British tyranny to colonial prejudices, stereotypes, and fears about insurrectionary slaves and violent Indians. Manipulating newspaper networks, Washington, Jefferson, Adams, Franklin, and their fellow agitators broadcast stories of British agents inciting African Americans and Indians to take up arms against the American rebellion. Using rhetoric like "domestic insurrectionists" and "merciless savages," the founding fathers rallied the people around a common enemy and made racial prejudice a cornerstone of the new Republic. In a fresh reading of the founding moment, Parkinson demonstrates the dual projection of the "common cause." Patriots through both an ideological appeal to popular rights and a wartime movement against a host of British-recruited slaves and Indians forged a racialized, exclusionary model of American citizenship.

From the first shots fired at Lexington to the signing of the Declaration of Independence to the negotiations for the Louisiana Purchase, Joseph J. Ellis guides us through the decisive issues of the nation's founding, and illuminates the emerging philosophies, shifting alliances, and personal and political foibles of our now iconic leaders—Washington, Jefferson, Madison, Hamilton, and Adams. He casts an incisive eye on the founders' achievements, arguing that the American Revolution was, paradoxically, an evolution—and that part of what made it so extraordinary was the gradual pace at which it occurred. He explains how the idea of a strong federal government was eventually embraced by the American people, and details the emergence of the two-party system, which stands as the founders' most enduring legacy. Ellis is equally incisive about their failures, and he makes clear how their inability to abolish slavery and to reach a just settlement with the Native Americans has played an equally important role in shaping our national character. With eloquence and insight, Ellis strips the mythic veneer of the revolutionary generation to reveal men both human and inspired, possessed of both brilliance and blindness. American Creation is an audiobook that delineates an era of flawed greatness, at a time when understanding our origins is more
