Swooning is a story of longing for a way of falling in love, for kinds of cities and places and styles of song, and for that last moment in time before American culture became a slave to anxiety. Set in the Fall of 1963 in a world of Manhattan nightclubs and jazz, of crooners and gangsters from places like Cleveland and Bay Ridge. The Beatles were around the corner and shadowy figures were making plans for Assassination Autumn. It was all about to end.

Breaking a thirty-five year silence, the girl at the center of the infamous Roman Polanski sexual assault case reflects on the events of that day and tells how her life was irrevocably altered by the rape and subsequent media attention.

One morning in February, Clovis Hartford ran an errand for her employer at the Courthouse. She arrived just in time to witness six murders in the courtroom she intended to enter. Other than a defense attorney who was in total shock, Clovis was the only eye witness. It became obvious she would have to testify when one of the shooters was captured a few weeks later. The authorities advised her to consider the Federal Witness Protection program after her testimony. Her husband, Harry Hartford, refused to go with her. If she insisted on testifying and would prefer living as someone else instead of staying at home with him, she could go into Witness Protection alone. She was shocked that material things meant more to Harry than she did - his wife of more than thirty years. This novel follows Clovis into Witness Protection and tells the story of starting over, alone. She has regrets, but knows she would have had to testify if she wanted to or not. She is homesick and misses the closeness of a spouse, the comforts of her family. Her new location is only a thousand miles from her home in Arcadia, California but may as well be on the moon. She keeps informed of her family by checking her youngest daughter’s MySpace page. The ups and downs of every day living is complicated only because she can’t confide in any of her new friends. The story has romance, attempts on her life, success in a new occupation and a neighbor so totally deranged she puts a snake in our heroine’s mailbox. This isn’t your Auntie’s romance novel by any means. But there is a touch of romance.

A whimsical guide to celebrity nudity provides information on more than two thousand actresses and the films in which they have appeared naked, along with biographical profiles, photographs, and lists of the best nude scenes. Original. 25,000 first printing.

Clovis Hartford was your average, run-of-the-mill, middle aged woman. She had been married to the same man for more than three decades and had four grown children. One day on her lunch hour, she witnessed the murder of six people. She could identify the shooters. Her entire life was changed as it was determined, after she testified at the trial of one of the shooters, she should enter the Federal Witness Protection Program. For reasons unknown at the time, her husband Harry refused to enter the program with her. She would either not testify or go alone. Clovis had a strong sense of justice and testified. A year later she learns why Harry wouldn’t accompany her in what could be the adventure of a lifetime. She was alone for the first time in more than thirty years. A new name, a new town, no friends...only a US Marshal to call on when she thought she would fall as Evelyn Beale. She found a job as an administrative assistant and nearly blundered with her name at the interview. She recovered the near goof and was hired. This book takes Eve, as she prefers to be called, through the first few years of her experiences as someone new. Things happen to her that, in other circumstances, would be taken as “stuff happens”. But as a Witness Protection person these things lead to considerable worry that the people from whom she’s being protected may have located her. She gradually makes friends and puts together a decent life.

For the twentieth anniversary of Diana’s death, a new, updated edition of the headline-grabbing New York Times bestseller that told the definitive story of how the Princess of Wales lost her life in a high-speed car accident in the heart of Paris on August 31, 1997. What really happened on that fateful summer night? Rumors still abound: that Diana and her boyfriend, Dodi Fayed (son of wealthy Egyptian businessman Mohamed Al Fayed), were planning to marry and British intelligence was somehow involved in their deaths. Or, that the paparazzi, a second car, or Diana and Dodi’s driver, may have been responsible. Written by Tom Sancton, Time’s Paris bureau chief at the time, and Scott MacLeod, then the magazine’s Middle East correspondent, Death of a Princess struck a chord in 1998 with its exhaustive account of what really happened in the months, days, hours, and minutes leading up to the fatal crash. The book remains a masterwork of strong, original reporting, firsthand interviews with key figures, and insider analysis of one of the twentieth century’s most tragic and unforgettable events.
