In Italian, the term crudo means simply raw. It is used to designate any raw, uncooked item when used as an adjective, such as prosciutto crudo meaning cured ham or "Parma ham." In fact, the term crudo used in isolation would probably be referring to prosciutto, as opposed to prosciutto cotto (cooked ham).

Crudo, somewhat made me think of. John Boyne ' s new book, A Ladder To The Sky. Although, I ' ve not read it, I did read the premise, and both books are about writers who pull in stories by watching people. Stealing stories, so to speak.

Kathy is getting married. It ' s the summer of 2017 and the whole world is falling apart. From a Tuscan hotel for the super-rich to a Brexit-paralysed UK, Kathy spends the first summer of her forties trying to adjust to making a lifelong commitment just as Trump is tweeting the world into nuclear war. But it ' s not only Kathy who ' s changing. Political, social and natural landscapes are all in peril. Fascism is on the rise, truth is dead, the planet is hotting up. Is it really worth learning to love when the end of the world is nigh? And how do you make art, let alone a life, when one rogue tweet could end it all. Olivia Laing radically rewires the novel in a brilliant, funny and emphatically raw account of love in the apocalypse. A New York Times Notable, Washington Post, NPR, Guardian, and Bustle Best Book of 2018 A brilliant, funny, and emphatically raw novel of love on the brink of the apocalypse, from the acclaimed author of The Lonely City. "She had no idea what to do with love, she experienced it as invasion, as the prelude to loss and pain, she really didn' t have a clue." Kathy is a writer. Kathy is getting married. It ' s the summer of 2017 and the whole world is falling apart. Fast-paced and frantic, Crudo unfolds in real time from the full-throttle perspective of a commitment-phobic artist who may or may not be Kathy Acker. From a Tuscan hotel for the superrich to a Brexit-paralyzed United Kingdom, Kathy spends the first summer of her forties adjusting to the idea of a lifelong commitment. But it ' s not only Kathy who ' s changing. Fascism is on the rise, truth is dead, the planet is heating up, and Trump is tweeting the world ever-closer to nuclear war. How do you make art, let alone a life, when one rogue tweet could end it all? In Crudo, her first work of fiction, Olivia Laing radically rewires the novel with a fierce, compassionate account of learning to love when the end of the world seems near.

"Astute and consistently surprising critic" (NPR) Olivia Laing investigates the body and its discontents through the great freedom movements of the twentieth century. The body is a source of pleasure and of pain, at once hopelessly vulnerable and radiant with power. In her ambitious, brilliant sixth book, Olivia Laing charts an electrifying course through the long struggle for bodily freedom, using the life of the renegade psychoanalyst Wilhelm Reich to explore gay rights and sexual liberation, feminism, and the civil rights movement. Drawing on her own experiences in protest and alternative medicine, and traveling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century—among them Nina Simone, Christopher Isherwood, Andrea Dworkin, Sigmund Freud, Susan Sontag, and Malcolm X. Despite its many burdens, the body remains a source of power, even in an era as technologized and automated as our own. Arriving at a moment in which basic bodily rights are once again imperiled, Everybody is an investigation into the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

In Poverty and Neglected Tropical Diseases in the American Rural South, Christine Crudo Blackburn and Macey T. Lively study regions of the United States rarely acknowledged by the average American. These are regions of extreme poverty in the rural American South where a mixture of historical discrimination, structural discrimination, lack of opportunities, and decaying infrastructure conspire to create an environment conducive to chronic, debilitating diseases known as Neglected Tropical Diseases (NTDs). Blackburn and Lively explore the conditions that allow NTDs to thrive in a wealthy nation like the United States when such diseases are typically associated with the poorest communities in Africa, Asia, and South America. Poverty and Neglected Tropical Diseases pulls back the curtain on the reality of poverty and disease in America and tell the story of failing sanitation infrastructure, the lack of clean water, the inability to access healthcare, and the lack of financial security through the eyes of those living it every day.

“ One of the finest writers of the new nonfiction ” (Harper ’ s Bazaar) explores the role of art in our tumultuous modern era. In this remarkable, inspiring collection of essays, acclaimed writer and critic Olivia Laing makes a brilliant case for why art matters, especially in the turbulent political weather of the twenty-first century. Funny Weather brings together a career ’ s worth of Laing ’ s writing about art and culture, examining their role in our political and emotional lives. She profiles Jean-Michel Basquiat and Georgia O ’ Keeffe, reads Maggie Nelson and Sally Rooney, writes love letters to David Bowie and Freddie Mercury, and explores loneliness and technology, women and alcohol, sex and the body. With characteristic originality and compassion, she celebrates art as a force of resistance and repair, an antidote to a frightening political time. We ’ re often told that art can ’ t change anything. Laing argues that it can. Art changes how we see the world. It makes plain inequalities and it offers fertile new ways of living.
