La danse a inspiré la littérature, et la littérature a inspiré la danse. Mais comment fonctionne exactement l'articulation entre les deux, et quelles sont les conséquences de leur réciprocité ? Cet ouvrage analyse ce lien depuis la Renaissance jusqu'à l'époque moderne, de d'Aubigné à Francis Ponge, de la danse macabre à la théorie de Laban. La relation entre danse et littérature est variable : parfois elle se fonde sur un principe esthétique, parfois sur un principe thématique, ou bien sociologique. Quelque soit la nature de ce rapport, ce livre démontre qu'il est durable et riche de sens. Les moyens d'expression de la danse et de la littérature sont radicalement différents, aussi éloignés les uns des autres que l'on puisse imaginer. Entre l'abstraction du langage et la matérialité du corps, le fossé paraît infranchissable. Ceci n'est qu'apparence. Mots et mouvements se complètent, les uns aidant à la compréhension des autres. Ce livre relate le désir à travers les siècles d'explorer cette inspiration mutuelle.

Mistletoes are an enigmatic group of plants. Lacking roots and depending on other plants for their livelihood, they have inspired a range of beliefs throughout the world. Some people regard them as being endowed with magical properties, others as destructive weeds that devalue native habitats, and still others as beautiful native plants that support wildlife. This second edition of *Mistletoes of Southern Australia* is the definitive authority on these intriguing native plants. With specially commissioned watercolours by artist Robyn Hulley and more than 130 colour photographs, it provides detailed species accounts for all 47 species found in the region. It is fully updated throughout, with new distribution maps and new sections on fire, climate change and mistletoes in urban areas. It also describes the ecology, life history and cultural significance of mistletoes, their distribution in Australia and around the world, and practical advice on their management.
