This book, by a great PanAfricanist leader, sets out the case for the total liberation and unification of Africa. It is essential reading for all interested in world socio-economic developmental processes. Those who might have considered in 1963, when Africa Must Unite was first published, that Kwame Nkrumah was pursuing a 'policy of the impossible', can now no longer doubt his statesmanship. Increasing turmoil through the succession of reactionary military coups and the outbreak of needless civil wars in Afirca prove conclusively that only unification can provide a realistic solution for Africa's political and economic problems. In the words of the author, "To suggest that the time is not yet ripe for considering a political union of

Africa is to evade facts and ignore realities in Africa today. Here is a challenge which destiny has thrown . to the leaders of Africa."

A fable-like memoir from the Vice President of Ghana that offers a shimmering microcosm of post-colonial Africa.

I SPEAK OF FREEDOM Kwame Nkrumah The Political independence of Ghana in 1957 became the catalyst of freedom in many other African countries.

In this thought provoking book the author takes a critical retrospective glance at the political development of Ghana from its colonial past to the attainment of her sovereignty, and highlights the insidious fundamental flaws in the governance of the new nation. He unequivocally asserts that the creation of a dysfunctional totalitarian governmental system, where a cadre of unseasoned politicians systematically arrogated all power to themselves, and zealously prosecuted their political adversaries into oblivion, constituted the most fatal fundamental flaw in the governance of the nation. He points out that the militarys delusional belief in their self-appointed messianic role of liberating and redeeming Ghana from the odious dictatorship imposed on the people opened up the nation to the Pandoras box of bureaucratic ineptitude, gross power abuses, poorly conceived, and haphazardly implemented programs which precipitated political instability, stagnation, and decay of the institutions of state leading to the exodus of Ghanaians abroad. The dominant theme that permeates throughout the book revolves around the prevalence of the underlying institutional malaise inherited from colonial political structures which concentrate too much raw political powers in the hands of the presidency. This accumulation of near absolute power elevates our presidents to the status of benevolent dictators, and so their policies go virtually unchallenged. This lack of checks and balances in our political system enabled the colonialists to totally exploit our people, and when our Ghanaian leaders governed our new nation in this same odious system they got the opportunity, like the colonial masters, to exploit and arrogate power to themselves, while utilizing the legal system as a weapon to harass their political opponents and silenced them. The author argues that this incompatibility of the colonial system with the political development of modern Ghana is the root cause of our political polarization, endemic instability and pervasive poverty.

Founded in 1943, Negro Digest (later "Black World") was the publication that launched Johnson Publishing. During the most turbulent years of the civil rights movement, Negro Digest/Black World served as a critical vehicle for political thought for supporters of the movement.
