Students these days do not realize how great there lives are and many of us are spoiled. Most of us just settle for our low grades and averages while many others simply choose not to care at all. We dont have the motivation that our parents had when they were young. We dont carry the strive to succeed, we only carry the strive to get through.

In the new novel from the author of Losing Me, one woman is about to discover what happens when you take the "grand" out of "grandma." Recently widowed, Judy Schofield jumps at the chance to look after her two grandchildren for six weeks while their parents are out of the country. After all, she's already raised her own daughter—and quite successfully, if she may say so herself. But all it takes is a few days of private school functions, helicopter parents, video games, and never-ending Frozen sing-alongs for Judy to feel she's in over her head. As weeks become months, Judy feels more and more like an outsider among all the young mothers with their parenting theories du jour, especially when she gets on the wrong side of the school's snooty alpha mom. But finding a friend in another grandmother—and a man who takes her mind off all the stress—almost makes it worthwhile. She just needs to take it one incomprehensible homework assignment and one major meltdown at a time. . . .

Days Like These is a romantic, colourful and heartfelt book by a writer whose pulse beats faster than most to the intoxicating rhythms of the racetrack. A personal and autobiographical account of one man's passionate love affair with horse racing and betting, it chronicles the origins and consequences of his obsession with the sport and his addiction to gambling, through good times and bad. By interweaving dramatic racing moments with key episodes from his own experiences, Reid shows how a love of 'the turf' can transform and intensify everyday life. The book celebrates some of the great racing personalities of the last 40 years - from Sir Peter O'Sullivan and Lester Piggott to Jonjo O'Neill and Captain Ryan Price - and focuses on some of the most legendary horses, including Arkle and Dawn Run. Beginning with a nail-biting account of a high-stakes gamble at the 2002 Cheltenham Festival and concluding with the jubilation of a 10-1 ante-post triumph at the following year's meeting, Reid evokes the people, the faces, the reek of fast food, and the potent adrenalin-charged atmosphere of the track. As well as being a vivid portrayal of horse-racing life, this is a book about fathers and sons, grandmothers and grandsons, and the sometimes painful path from childhood to adulthood. There is a memorable portrait of Reid's eccentric gambling-mad grandmother and a graphic description of the stifling horrors of conventional schooling and small town life in late '50s and early '60s England, from which Reid escaped through horse racing. At times humorous, at times moving, Days Like These is destined to become a modern horse-racing classic in its own right.

There are love stories and then there's Days Like These—the story of Kristian and Rachel Anderson. When Kristian wanted to show his wife, Rachel, how much he loved her after learning he was terminally ill, he ended up winning a million hearts around the world, thanks to the now famous YouTube video he made for her 35th birthday. This heartfelt and moving tribute by a young Australian father of two and his battle with cancer drew attention to a much larger story—an ordeal so many families face alone. Like Oprah, who invited Kristian and Rachel on her show, and Hugh Jackman, who helped make one of Kristian's dreams come true by appearing on the tribute, though we didn't know him, we were so inspired by him we felt like we did. He touched lives, gave hope, and left behind a precious legacy that will mean a longer and better quality of life for thousands of cancer sufferers. His story, told in his own words from his blog entries, with additions from his beloved Rachel, will inspire you to know that even in your darkest moments, the light can shine through.

Remembering the Holocaust in Educational Settings brings together a group of international experts to investigate the relationship between Holocaust remembrance and different types of educational activity through consideration of how education has become charged with preserving and perpetuating Holocaust memory and an examination of the challenges and opportunities this presents. The book is divided into two key parts. The first part considers the issues of and approaches to the remembrance of the Holocaust within an educational setting, with essays covering topics such as historical culture, genocide education, familial narratives, the survivor generation, and memory spaces in the United States, United Kingdom, and Germany. In the second part, contributors explore a wide range of case studies within which education and Holocaust remembrance interact, including young people's understanding of the Holocaust in Germany, Polish identity narratives, Shoah remembrance and education in Israel, the Holocaust and Genocide Centre of Education and Memory in South Africa, and teaching at Deakin University, Melbourne, Australia. An international and interdisciplinary exploration of how and why the Holocaust is remembered through educational activity, Remembering the Holocaust in Educational Settings is the ideal book for all students, scholars, and researchers of the history and memory of the Holocaust as well as those studying and working within Holocaust education.

Covering self-contained adapted physical education classes, general physical education programs, and youth sports and community recreation, this book presents a series of case studies of teaching individuals of varied ability and disability in physicalactivity settings. Outlining realistic scenarios, it encourages an interactive, problem-solving teaching and learning style and the development of critical thinking skills. Now in a fully revised and updated second edition, the book covers a wide range of different professional issues, themes, disabilities, and conditions, from assessment and behavior management processes to working with students with intellectual disabilities, motor difficulties, chronic illness, or obesity. Each case study includes questions that challenge the reader to ref lect on the practical issues involved and how to build inclusive teaching strategies. This book is valuable reading for all physical education students, teacher candidates, and novice and experienced teachers looking to deepen their understanding of adapted physical education and to improve their professional practice. It is an essential companion to any adapted physical education or physical activity course.

Vols. 19-34 include "Bibliography of education" for 1899-1906, compiled by James I. Wyer and others.

This work offers students a complete overview of key writings on music education, from the ancient Greeks to contemporary American thought, with emphasis on writings from the last 100 years. Designed to complement the standard music pedagogy course, the selections range from Plato's Republic through William Billings's writings on Colonial American Music Education through the 2001 advocacy for music education. In five sections, each part of the book is introduced by a brief essay giving an overview of the material covered and information placing it within the critical context of its day. Individual articles are also prefaced with informative headnotes.
