Physical Metallurgy and Advanced Materials is the latest edition of the classic book previously published as Modern Physical Metallurgy and Materials Engineering. Fully revised and expanded, this new edition is developed from its predecessor by including detailed coverage of the latest topics in metallurgy and material science. It emphasizes the science, production and applications of engineering materials and is suitable for all post-introductory materials science courses. This book provides coverage of new materials characterization techniques, including scanning tunneling microscopy (STM), atomic force microscopy (AFM), and nanoindentation. It also boasts an updated coverage of sports materials, biomaterials and nanomaterials. Other topics range from atoms and atomic arrangements to phase equilibria and structure; crystal defects; characterization and analysis of materials; and physical and mechanical properties of materials. The chapters also examine the properties of materials such as advanced alloys, ceramics, glass, polymers, plastics, and composites. The text is easy to navigate with contents split into logical groupings: fundamentals, metals and alloys, nonmetals, processing and applications. It includes detailed worked examples with real-world applications, along with a rich pedagogy comprised of extensive homework exercises, lecture slides and full online solutions manual (coming). Each chapter ends with a set of questions to enable readers to apply the scientific concepts presented, as well as to emphasize important material properties. Physical Metallurgy and Advanced Materials is intended for senior undergraduates and graduate students taking courses in metallurgy, materials science, physical metallurgy, mechanical engineering, biomedical engineering, physics, manufacturing engineering and related courses. Renowned coverage of metals and alloys, plus other materials classes including ceramics and polymers. Updated coverage of sports materials, biomaterials and nanomaterials. Covers new materials characterization techniques, including scanning tunneling microscopy (STM), atomic force microscopy (AFM), and nanoindentation. Easy to navigate with contents split into logical groupings: fundamentals, metals and alloys, nonmetals, processing and applications. Detailed worked examples with real-world applications. Rich pedagogy includes extensive homework exercises.

Agnes and Honey have always been best friends, but they haven't always been so different. Agnes loves being a Believer. She knows the rules at the Mount Blessing religious commune are there to make her a better person. Honey hates Mount Blessing and the control Emmanuel, their leader, has over her life. The only bright spot is the butterfly garden she's helping to build, and the journal of butterflies that she keeps. When Agnes's grandmother makes an unexpected visit to the commune, she discovers a violent secret that the Believers are desperate to keep quiet. And when Agnes's little brother is seriously injured and Emmanuel refuses to send him to a hospital, Nana Pete takes the three children and escapes the commune. Their journey begins an exploration of faith, friendship, religion and family for the two girls, as Agnes clings to her familiar faith while Honey desperately wants a new future.

If you want to know how it feels to be the DJ, to share the music you love with other people, to receive the adulation of packed dancefloors night after night, this book will show you exactly what to do to get there. Whether you're brand-new to this, a DJ who wants to finally break out of the bedroom, or you just want to improve your game, the five-step formula in Rock The Dancefloor! will help you to become a truly great DJ. This clear and practical guide will enable you to: Understand modern DJ gear, in order to avoid expensive mistakes Assemble the best music collection, so you can fill any dancefloor Quickly master all the techniques, so your DJ mixes sound amazing Perform like a pro at any type of gig: parties, bars, night clubs... Promote yourself effectively, for more and better paid bookings

From a New York Times best-selling author, an important and heartfelt exploration into the world of lost dogs and the power of reunion One in six dogs go missing at some point in their lives, leaving bereft owners to search high and low, hang missing posters, check shelters, and hope for good news. But amid these grim statistics, countless happy endings are forged. Tails wag again. Best friends are reunited. In Where the Lost Dogs Go, Susannah Charleson, author of Scent of the Missing and a trusted chronicler of the human/animal bond, dives headlong into the world of missing dogs. The mission to reunite lost pets with their families starts with Susannah's own shelter rescue, Ace, a plucky Maltese mix with a mysterious past who narrowly survived months wandering lost. While Susannah formally studies animal behavior, lost-pet search tactics, social media strategies, and the psychology of loss, Ace also steps up for training. Cheerful and resourceful, Ace has revealed a nose for the scent of lost pets, and together they help neighbors and strangers in their searching. In Where the Lost Dogs Go, readers take to the streets beside Susannah to bring home a host of missing pets. Along the way, Susannah finds a part of herself also lost. And when unexpected heartbreak shatters her own sense of direction, it is Ace--the shelter dog that started it all--who leads Susannah home. Inquisitive, instructive, heartrending, and hopeful, Where the Lost Dogs Go pays tribute to the missing dogs--and to the found--and to the restless space in between.

'Last night I cut this. It's a heart. It's forever. It's for you.' Deep in the night, in a lonely motel room somewhere in central Australia, six lost souls collide - haunted by the same tragic crime. Angela Betzien's The Dark Room is an intricately layered psychological thriller, exposing the startling mistreatment of those most vulnerable in our society, at the hands of those who are meant to protect them. The play won the award for Best New Australian Work at the Sydney Theatre Awards on its premiere in 2011. It had its UK premiere at Theatre503, London, in November 2017. Angela Betzien is a multi-award-winning playwright. Her work has been produced widely across Australia and internationally, to critical acclaim. She has also been Playwright on Attachment at the National Theatre Studio.

This 87 Year Old Birthday Journal / Diary / Notebook makes an awesome unique birthday card / greeting card idea as a present! This journal is 6 x 9 inches in size with 110 blank lined pages with a white background theme for writing down thoughts, notes, ideas, or even sketching.

Kaye Trilby and her ex-husband, world-famous author Samuel Cabral, vowed to fight for their rekindled love in rain or shine. They didn't realize they'd be caught in a deluge so quickly. A near-fatal skydiving accident shows Kaye how her reckless behavior affects the ones she loves. But while she knows Samuel is afraid to lose her again, she isn't ready to give up the thrill of the wild backcountry. Something darker is slipping into Samuel's mind, though. The specters of his past are re-emerging. His polish is deteriorating, just as all of Hollywood is bracing for his blockbuster book-to-movie adaptation. When he

appears on Kaye's doorstep late one night in a rumpled tuxedo, erratic and agitated, it seems that romance with her ex might be her biggest leap yet. A string of failed relationships has pushed Samuel to the brink, the fall-out leaving him in a dark place—a place where Kaye is powerless to help him. She is reluctantly drawn back into Samuel's glittering and backbiting world of celebrity, all the while clinging to the steadfast peaks of home.
