This volume takes an objective look at the white supremacy movement since WWII in the United States and Europe, and offers entries describing the people, groups, and themes that make up the radical racist right. Some of the entries have been written by movement activists, others by a variety of scholars. The second half of the volume includes primary documents of resources circulated within the

movement, each prefaced by Kaplan (American studies, U. of Helsinki, Finland) and placed in historical and scholarly context. The material is at times offensive, but presented in an academic way. Annotation copyrighted by Book News Inc., Portland, OR

Developed from the critically acclaimed and commercially successful Dictionary of Race and Ethnic Relations, now in its fourth edition, Encyclopedia of Race and Ethnic Studies has been assembled by a world-class team of international scholars led by Ellis Cashmore to provide an authoritative, single-volume reference work on all aspects of race and ethnic studies. From Aboriginal Australians to xenophobia, Nelson Mandela to Richard Wagner, sexuality to racial profiling, the Encyclopedia is

Read Free Encyclopedia Of White Power A Sourcebook

organized alphabetically and reflects cultural diversity in a global context. The entries range from succinct 400 word definitions to in-depth 2000 word essays to provide comprehensive coverage of: all the key terms, concepts and debates important figures, both historical and contemporary landmark cases historical events Although unafraid to engage with cutting-edge theory, the Encyclopedia is uncluttered by jargon and has been written in a lucid, 'facts-fronted' style to offer an accessible introduction to race and ethnic studies. The Encyclopedia is also fully cross-referenced and thoroughly indexed with most entries followed by annotated up-to-date suggestions for further reading to guide the user to the key sources. It is destined to become an essential resource for scholars and

students of race and ethnic studies, as well as a handy reference for journalists and others working in the field.

This encyclopedia covers American right-wing extremist groups and extremism from the 1930s to the present day, including neo-Nazis, the Ku Klux Klan, and various anti-government organizations. □

Chronological presentation of the specific groups and organizations provides historical insight into the development of right-wing extremism □

Provides an up-to-date bibliography for further reading □ Thorough cross-referencing of sources

White Rage examines the development of the modern American extreme right and American politics

Read Free Encyclopedia Of White Power A Sourcebook

from the 1950s to the present day. It explores the full panoply of extreme right groups, from the remnants of the Ku Klux Klan to skinhead groups and from the militia groups to neo-nazis. In developing its argument the book: discusses the American extreme right in the context of the Oklahoma City bombing, 9/11 and the Bush administration; explores the American extreme right's divisions and its pursuit of alliances; analyses the movement's hostilities to other racial groups. Written in a moment of crisis for the leading extreme right groups, this original study challenges the frequent equation of the extreme right with other sections of the American right. It is a movement whose development and future will be of interest to anyone concerned with race relations and social conflict in modern

organizations and beliefs of domestic terrorists in the United States and how to counter their attacks on American democracy. Who are the American citizens--White nationalists and militant Islamists--perpetrating acts of terrorism against their own country? What are their grievances and why do they hate? How can this transnational peril be effectively addressed? Homegrown Hate is a groundbreaking and deeply researched work that directly compares White nationalists and militant Islamists in the United States. In this timely book, scholar and holistic justice activist Sara Kamali examines these Americans' self-described beliefs, grievances, and rationales for violence, and details their organizational structures within a transnational context. She presents compelling insight into the most

pressing threat to homeland security not only in the United States, but in nations across the globe: citizens who are targeting their homeland according to their respective narratives of victimhood. She also explains the hate behind the headlines and provides the tools to counter this hate from within, cogently offering hope in uncertain and divisive times. Innovative and engaging, this is an indispensable resource for all who cherish equity and justice in the United States and around the world.

The Encyclopedia of Critical Whiteness Studies in Education offers readers a broad summary of the multifaceted and interdisciplinary field of critical whiteness studies, the study of white racial identities in the context of white supremacy, in education.

This three-volume work offers a comprehensive review of the pivotal concepts, measures, theories, and practices that comprise criminology and criminal justice. No longer just a subtopic of sociology, criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology, political science, behavioral science, law, economics, public health, family studies, social work, and many others. The three-volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single, authoritative reference work. More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive,

international resource. The pivotal concepts, measures, theories, and practices of the field are addressed with an emphasis on comparative criminology and criminal justice. While the primary focus of the work is on American criminology and contemporary criminal justice in the United States, extensive global coverage of other nations' justice systems is included, and the increasing international nature of crime is explored thoroughly. Providing the most up-to-date scholarship in addition to the traditional theories on criminology, the Encyclopedia of Criminology is the essential one-stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field.

With the leverage of digital

reproducibility, historical messages of hate are finding new recipients with breathtaking speed and scope. The rapid growth in popularity of right-wing extremist groups in response to transnational economic crises underscores the importance of examining in detail the language and political mobilization strategies of the New Right. In Europe, for example, populist right-wing activists organized around an anti-immigration agenda are becoming more vocal, providing pushback against the increase in migration flows from North Africa and Eastern Europe and countering support for integration with a categorical rejection of multiculturalism. In the United States, anti-immigration sentiment provides a rallying point for political and personal agendas that connect the rhetoric of

Read Free Encyclopedia Of White Power A Sourcebook

borders with national, racial, and security issues. Digital Media Strategies of the Far Right in Europe and the United States is an effort to examine and understand these issues, informed by the conviction that an interdisciplinary and transnational approach can allow productive comparison of far-right propaganda strategies in Europe and the United States. With a special emphasis on performing ideology in the far-right music scene, on violent anti-immigrant stances, and on the far right's skillful creation and manipulation of virtual communities, the contributions foreground the cultural shibboleths that are exchanged among far-right supporters on the Internet, which serve to generate a sense of group belonging and the illusion of power far greater than the known numbers of

Read Free Encyclopedia Of White Power A Sourcebook

neo-Nazis in any one country might suggest. Moreover, with attention to transatlantic right-wing movements and their use of particularly digital media, the essays in this volume put pressure on the similarities among the various national agents, while accommodating differences in the virtual and sometimes violent identities created and nurtured online.

This book focuses on religiously driven oppositional violence through the ages. Beginning with the 1st-century Sicari, it examines the commonalities that link apocalypticism, revolution, and terrorism occurring in Judaism, Christianity, and Islam past and present. It is divided into two sections, 'This was Then' and 'This is Now', which together examine the cultural and religious history of oppositional

violence from the time of Jesus to the aftermath of the 2016 American election. The historical focus centers on how the movements, leaders and revolutionaries from earlier times are interpreted today through the lenses of historical memory and popular culture. The radical right is the primary but not exclusive focus of the second part of the book. At the same time, the work is intensely personal, in that it incorporates the author's experiences in the worlds of communist Eastern Europe, in the Iranian Revolution, and in the uprisings and wars in the Middle East and East Africa. This book will be of much interest to students of religious and political violence, religious studies, history, and security studies.
