Here's how much you need to put in a 529 savings plan every month to send your child to Harvard debt-free. ... Harvard estimates that students pay will be around \$75,000 per year to get their degree.

Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.1 Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In Debt-Free Degree, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: *How to prepare their child for college *Which classes to take in high school *How and when to take the ACT and SAT *The right way to do college visits *How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades. Debt-Free Degree shows parents how to pay cash for college and set their child up to succeed for life.

"What every parent needs to know in order to pay cash for college. Most people believe that student loans are the only way to pay for college. That's why we have a \$1.5 trillion student loan crisis in the US and over 40 million Americans are saddled with student loan debt. But there is another way. Debt Free Degree teaches parents how their kid can graduate from college without debt, even if they haven't saved for it. It also shows parents how to prepare their child for college, covering topics like what classes to take in high school, when to start testing, how to do college visits, and how to choose a major. Every parent wants the best for their child. Graduating from college without debt is not only possible-it positions both parents and students to win with money for life"--

This book can save you more than \$100,000. These days, most people assume you need to pay a boatload of money for a quality college education. As a result, students and their parents are willing to go into years of debt and potentially sabotage their entire financial futures just to get a fancy name on their diploma. But Zac Bissonnette is walking proof that this assumption is not only false, but dangerous-a class con game designed to rip you off and doom your student to a post-graduation life of near poverty . From his unique double perspective-he's a personal finance expert (at Daily Finance) AND a current senior at the University of Massachusetts-Zac figured out how to get an outstanding education at a public college, without bankrupting his parents or taking on massive loans. Armed with his personal knowledge, the latest data, and smart analysis, Zac takes on the sacred cows of the higher education establishment. He reveals why a lot of the conventional wisdom about choosing and financing college is not only wrong but hazardous to you and your child's financial future. You'll discover, for instance, that: * Student loans are NOT a necessary evil. Ordinary middle class families can- and must-find ways to avoid them, even without scholarships. * College "rankings" are useless- designed to sell magazines and generate hype. If you trust one of the major guides when picking a college, you face a potential financial disaster. * The elite graduate programs accept lots of people with non-elite bachelors degrees. So do America's most selective employers. The name on a diploma ultimately won't help your child have a more successful career or earn more money. Zac can prove every one of those bold assertions - and more. No matter what your current financial situation, he has a simple message for parents: "RELAX! Your kid will be able to get a champagne education on a beer budget!"

This isn't a book about school. It's a book about money and setting young people up for long-term success. I wanted to go to college and I wanted to go to law school-but I didn't want to take out loans, and my parents couldn't help. So, I engineered a battle plan to cash flow both.Student loans in America are completely out of control. Our culture blindly endorses the notion that students who desire an education are required to submit to decades worth of debt. But this is a premise I was simply unwilling to accept-even if it meant delivering pizzas, mowing thousands of lawns, obtaining a real estate license, learning how to sweep chimneys, and a slew of other exploits. We have encouraged a generation to pursue a good thing in a bad way, which for many has yielded devastating results. It is possible to obtain a degree-at any level-without loans. It's time to disrupt the system of higher education in America.

Today in the United States, students are graduating from college already in debt from student loans and beginning their careers in an uncertain economy. Statistics have shown that freshman college students are stressednot about their grades or about doing wellbut rather about the debt they are already accumulating. But is it really possible to graduate from college debt-free? John Lane did, and with his guidebook HOW TO GRADUATE FROM COLLEGE DEBTFREE, he can teach you how to do the same. Recent college graduate John Lane combines mini-workshops with concrete concepts, interactive exercises, and personal stories in order to provide a complete guide on how students can embark on a successful journey to receiving a college education while becoming financially self-sufficient and paying for education costs at the same time. While encouraging students to be proactive in earning funds prior to attending college, Lane also underlines the importance of setting financial goals, creating affirmations, and developing personal declarations. HOW TO GRADUATE FROM COLLEGE DEBT-FREE provides valuable information for any high school or current college students who wants to gain financial freedom and independence and throw their cap in the air on graduation day knowing they are debt-free!

You'd love to get your kids through college debt-free-but your kids aren't getting any scholarships, you haven't saved for college, and you make too much to get government financial aid. Is there still hope? Yes, but you'll need someone to guide you. In LAUNCH, academic strategist Jeannie Burlowski lays out clear, step-by-step strategies that empower parents to get their kids through high quality, best-fit colleges debt-free-and then directly into jobs they love afterward. Experts rave about LAUNCH: "The checklists at the end of each chapter in this book are fabulous. They're golden. Well worth the entire price of the book." -Bob Shorb, former associate dean of admissions and financial aid and director of student aid and family finance, Skidmore College "Students who go through college without career direction are, as Jeannie Burlowski says, 'like archers who pull the arrow back on the bow string, shoot, and then years later look around for the target.' This book helps parents set their kids up to take aim early and fire a sure shot, whether that's at medical school or at some other worthy endeavor." -Dr. Paul Amble, MD, assistant clinical professor, Yale School of Medicine "I'm a Morgan Stanley wealth management advisor, and after I read this book cover to cover I purchased 30 copies for clients. Every financial advisor needs to know the information in this book. It's valuable for all types of families-from those that think their income is too high to qualify for aid, to those that worry they'll go into debt paying for college. We utilize this book in our financial planning practice as we guide our clients to the things that matter most in their lives. If you're confused about how FAFSA works or what your kids should contribute, this book will provide clear answers. I was especially impressed with the way the book breaks down the pertinent information with chapters that align with the age of your kid. And the checklists for each chapter allow families to pick and choose the advice that best works for their family. My favorite part of the book is that it is truly a parenting book-with tips and insight for raising strong, thoughtful people who care about improving the world. The focus is on the outcome: your child becoming a successful and happy adult. If you're going to choose a financial advisor, you need to make sure that they know the specific college planning information in this book and are utilizing these ideas in their practice." -Alix Magner, financial advisor, Morgan Stanley, Minneapolis, MN "I'm a certified financial planner who cares deeply that parents are able to send their kids to college without risking their retirement. You can be sure I'll be recommending this book every chance I get." -Mike Branch, CFP, Focus Financial, Minneapolis, MN "High school guidance counselors have a difficult time covering the intricacies of the college admission and financing process in the small amount of time they have to work with a large number of students. This book fills in all the gaps-and more-for parents." -Josie Robinson, author and former high school guidance and career counselor, White Bear Lake Area High School And here's what parents like you say about LAUNCH: "We only used a small fraction of the ideas in this book, and our daughter graduated from an excellent private university at age 20 and went straight to her dream job at Disney. Read chapters 1 and 2 when your kid's in middle school!" -Liz and Tim Weatherhead, Bloomington, MN
