Excel Stair Lifts - Products. The two main styles of stairlifts are straight and curved. Straight stairlifts are the most common style, and are designed to travel in a straight line from floor to floor. People with more than two levels often install two or more straight stairlifts, to allow them to move freely around all levels.

This manual provides guidance for the design and construction of coastal residential structures able to resist damage from flood, wind, and erosion hazards. Included herein are discussions of new residential structures - principally detached single-family, attached single-family (townhouse), and low-rise (three-story or less) multifamily houses. Non-residential structures of similar sizes, loads, and construction can also be considered by interpreting the data and

procedures found in this manual, as can retrofitting of existing structures.

Introduction to Sports Biomechanics has been developed to introduce you to the core topics covered in the first two years of your degree. It will give you a sound grounding in both the theoretical and practical aspects of the subject. Part One covers the anatomical and mechanical foundations of biomechanics and Part Two concentrates on the measuring techniques which sports biomechanists use to study the movements of the sports performer. In addition, the book is highly illustrated
