A college-level text examining the communication processes within families and how they affect and are affected by larger social systems. The authors view the family as a communication system with identifiable patterns and emphasize the analysis of family interaction patterns. Concluding remarks, review questions, and case studies round out the text. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).

Family Communication: Cohesion and Changeexamines the communication processes within families and how they affect and are affected by larger social systems. By viewing the family as a communication system with identifiable patterns, the authors encourage the reader to observe family interaction patterns analytically and relate communication theories to family interaction. Using a framework of family functions, first-person narratives, and current research, Family Communication: Cohesion and Change emphasizes the diversity of today's families in terms of structure, ethnic patterns, and developmental experiences.

This functional new volume introduces professionals to the Circumplex Model of Family Systems—one of the most respected and widely used approaches of its kind in family studies. Internationally known scholar/practitioners in the marriage and family therapy field demonstrate how the model can be used to assess couple and family dynamics and plan treatment interventions. They extend the use of the Circumplex Model for treating problem families using a range of clinical interventions at both the family level and broader social system level—including specific treatment populations—sex offenders, juvenile delinquents, truants, and multi-problem families. Designed as a multidisciplinary resource, this authoritative and accurate volume will assist social workers, psychologists, pastoral counselors, family therapists, and other mental health professionals who work with individuals in a family treatment context.

Engaging Theories in Family Communication, Second Edition delves deeply into the key theories in family communication, focusing on theories originating both within the communication discipline and in allied disciplines. Contributors write in their specific areas of expertise, resulting in an exceptional resource for scholars and students alike, who seek to understand theories spanning myriad topics, perspectives, and approaches. Designed for advanced undergraduate and graduate students studying family communication, this text is also relevant for scholars and students of personal relationships, interpersonal communication, and family studies. This second edition includes 16 new theories and an updated study of the state of family communication. Each chapter follows a common pattern for easy comparison between theories.

Social cohesion has had different meanings for people depending on their background, their interests, where they live in the world, and at what time they lived. In the social sciences, social cohesion is a term used to explain the social and cultural consequences of structural changes related to industrialization and modernity. In the European Union, structural changes which relate to globalization, European integration, the restructuring of welfare states, ageing societies, and transitions from communism, have often led to more insecurity and material inequalities between people. Higher rates of immigration, and issues related to the integration of migrants and their descendants, have also led to anxieties about the preservation of national cultures and identities. This book argues that perceived crises in social cohesion in Europe have more to do with the consequences of structural change rather than the failure of multiculturalism and immigration. It looks at the relationship between social cohesion and social change in Europe, focusing on the European Union as a whole, and on urban areas such as Paris, France and Bradford, UK. This book was originally published as a special issue of Patterns of Prejudice.

Intercultural Communication: Globalization and Social Justice, Second Edition, introduces students to the study of communication among cultures within the broader context of globalization. Kathryn Sorrells highlights history, power, and global institutions as central to understanding the relationships and contexts that shape intercultural communication. Based on a framework that promotes critical thinking, reflection, and action, this text takes a social justice approach that provides students with the skills and knowledge to create a more equitable world through communication. Loaded with new case studies and contemporary topics, the Second Edition has been fully revised and updated to reflect the current global context, emerging local and global issues, and more diverse experiences.
