FORDSON Tractor Operator's & Repair Manuals PDF

Fordson was a brand of tractors and trucks. It was used on a number
of general-purpose serial tractors produced by Henry Ford & Son Inc
from 1917 to 1920, Ford Motor Company (USA) and Ford Motor Company
Ltd (United Kingdom) from 1920 to 1928, as well as Ford Motor Company
Ltd (United Kingdom) from 1929 to 1964. The latter (Ford of Britain)
also later built Fordson trucks.

Fordson E27N Major Tractor Specifications

Fordson with metal wheels, a 20-horsepower engine and a mass of 1130 kg, which in 1918 cost 880 dollars, was reduced in 1921 to 625, and in 1922 to 395 dollars. Tractors were sold through Ford's auto sales network, which reached the most backward agricultural regions of the country.

1950s Fordson Major Diesel - YouTube

The Fordson E27N Major was an upgrade to the Fordson N, and made in England from March 1945, having the same engine and transmission as the Model N, but in a new casting which allowed for a PTO and a hydraulic lift unit manufactured by either Smiths or Varley. The differential however was of completely new design.

Fordson - Wikipedia

The Fordson E27N Major was a minor upgrade of the Fordson N, which itself was very similar to the original Fordson F. Post-war shortages delayed the development of an entirely new tractor. It was known simply as the the Fordson Major until 1953, when the E1A "New Major" entered production.

The Fordson Major tractor was produced in large numbers at Ford's UK Dagenham factory from 1951 until 1964, and was exported across the world, including to the USA (where it was called the Ford 5000 diesel). Produced with petrol, diesel and kerosene-burning engines, the E1A was the subject of continuous development during its life and was a huge success. Many examples of the E1A can still be found at work on farms today, 50 years after the first models entered production. This extensively illustrated book provides a unique insight into this classic tractor.
