helps improve student performance over a variety of critical outcomes while aiding instructor grading and assessment efficiency. Housed within Connect, SmartBook is an adaptive study tool that helps identify specific topics and learning objectives individual students need to study. As students read, SmartBook assesses comprehension and dynamically highlights where they need to focus more. The result is that students are more engaged with course content, can better prioritize their time, and come to class ready to participate. End-of-Chapter Material helps you apply the concepts in accounting and, in more comprehensive material, analyze the information to form business decisions. Assignable material includes exercises, problems and test bank material. Based on your instructor settings, you can receive instant feedback on your work either while working on an assignment or after the assignment is submitted for a grade.

Developing Skills for the Classroom and Beyond: Fundamentals of Cost Accounting lets the student see the development of cost accounting tools and techniques as a natural response to decision making. By learning this intuition, students will have an easier time understanding new developments that arise during their careers. **Procedural Approach:** The material in the text is presented from the perspective of both the preparer of information as well as those who will use the information. This allows both accounting majors and those students planning other careers to appreciate the issues involved in preparing and using such information. **Updated Discussions:** The sixth edition has been updated to include new discussion on the links between activity-based cost management and lean manufacturing and lean accounting, as well as new discussion on strategy and performance.

The authors have kept the text concise by focusing on the key concepts students need to master. Opening vignettes & 'in action' boxes show realistic applications of these concepts throughout. Comprehensive end-of-chapter problems provide students with all the practice they need to fully learn each concept.
