exploring the structure of

As a psychiatrist, Dr. Berne found that each person, in

Online Library Games

People Play The

early childhood--under the powerful influence of his parents--writes his own script that will determine the general course of his life. That script dictates what kind of person he will marry, how many children he

Online Library Games

People Play The

will have, even what kind of bed he will die in. Most of all, it determines whether he will be a winner or a loser, a spendthrift or a skinflint, a tower of strength or a doomed alcoholic. Some people, says

Online Library Games

People Play The

Psychology Of Human Relationships

Berne, have scripts that call for them to fail in their professions, or to be repeatedly disappointed in love, or to be chronic invalids. Here, he demonstrates how each life script gets written, how it

works, and how each of us
can break free of it to help
us attain real autonomy and
true fulfillment.
