Provides an overview of the MyPyramid, the new symbol for dietary guidelines for Americans, introduced in 2005. Volume 3 of the three part series digs into the "science" as well as the economics of food.

Confused by all the changes in the USDA's nutrition policies? We have the books for you! This three-volume series builds awareness about healthy food and lifestyle choices in light of the most current thinking about nutrition and exercise. These books contain reproducible pages, 8 full-color transparencies (print books) or PowerPoint slides (eBooks) and answer keys. In addition to interpreting the new food plate, this book digs even deeper into the "science" as well as the economics of food — how marketing effects the kinds of foods introduced to American consumers. The emphasis is on distinguishing nutritious food from junk food. Games, word searches, matching activities, and simple recipes for classroom preparation of healthy snacks are included.

Abstract: Nutrition education lesson plans for the Choose Well Be Well series are provided by grade level as resources for teachers' and other nutrition educators helping students obtain knowledge and skills needed to make wise food choices contributing to overall health and well being. Three types of lessons are provided: information acquisition, open ended discussion and values awareness. Each provides a detailed description of the procedure and a list of required instructional materials. Designed to help students attain California's Minimum Proficiency Levels for Nutrition Education, lessons and activity sections may be used in their entirety or selectively to blend with ongoing curriculum or student needs. Handout, worksheet and game board masters are included. (js).

Provides an overview of the MyPyramid, the new symbol for dietary guidelines for Americans, introduced in 2005. Volume two of three delves into the "science" of food.

Confused by all the changes in the USDA's nutrition policies? We have the books for you! This three-volume series builds awareness about healthy food and lifestyle choices in light of the most current thinking about nutrition and exercise. These books contain reproducible pages, 8 full-color transparencies (print books) or PowerPoint slides (eBooks), and answer keys. In addition to interpreting the new food plate, this book delves more into the "science" of food — including discussions of food safety (understanding the microbiological activity in foods and how to keep food safe to eat), foods that fight diseases (blood pressure, brittle bones, cancer, heart disease), and other issues. Games, word searches, matching activities, and simple recipes for classroom preparation of healthy snacks are included.

Nutrition and Diet Therapy: Self-Instructional Approaches covers the fundamentals of basic nutrition, and then nutrition as therapy, in both adults and children. It is designed to work as a traditional text or a self-instructional text that allows for distance-learning and self-paced instruction. Progress checks throughout each chapter and chapter post-tests help students to evaluate their comprehension of key information. The Fifth Edition has been completely revised and updated to include My Pyramid and corresponding DRIs and all of the all figures and tables have been revised. Accompanied by A Comprehensive Companion Web site

Reaching nearly 1 million readers monthly, Better Nutrition celebrates 70 years as a leading in-store distributed magazine for health conscious consumers. Widely distributed to thousands of health-food stores and grocery chains across the country, Better Nutrition provides authoritative, well-researched information on food nutrition, dietary concerns, supplements and other natural products.

The compelling connection between the classroom and what happens in the world is the basis of Real Life Literacy. It shows teachers how to turn kids on to learning and build skills that will help them function more successfully in the real world. It fills in the gaps often missing from traditional language arts classes and offers a range of classroom tools that promote real-world reading and writing. Some of the basic literacy topics that are covered include: Writing and deciphering messages — from notes and memos to invitations and advertisements; Taking the mystery out of labels — from understanding labels on medicine bottles to making sense of food and clothing labels; Coping with everyday money management — from completing order forms to writing cheques and balancing a bank book; Reading and interpreting specialized text — from finding information in nonfiction books to effectively using phone books, entertainment guides, and bus schedules. This timely book makes a powerful case for linking genuine, purposeful, and functional in-school activities to the lives of students. It promotes using classroom learning to guide and support students as they strive to make meaning of their world.
