"Twenty-twenty hindsight" means perfect understanding of events only after they have happened. In his book, Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events. Sekese suffered discrimination and prejudice under the old apartheid government as well as the new, democratic regime. His story is highly personal, but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with. "I had a quick read and I find the content heartbreaking but fascinating. Especially as a white South African you are drawing me into a world that I always knew existed, but which few people have the guts and conviction to paint into words." – Louise Heystek-Emerton: CEO Wordwise/Khuluma Awethu

With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.
