Get your green thumb dirty with these outdoor experiments and activities. By Scholastic Parents Staff. Ages. 6-7. Gardening and simple science projects show your child the way things work and teach responsibility, environmental awareness, and even how to handle disappointment, when that carefully planted bulb refuses to sprout.

Parents - Scholastic | Books for Kids

If you've got a green thumb, you can include your kids in your gardening activities. It's a fun way to be active as a family while getting some extra help to get your outdoor chores done. Gardening works on gross motor skills (shovelling, digging, and lifting) and also fine motor skills (planting, scooping, watering, and laying soil). But there are many other ways to make it active as well.

Make gardening an active family affair - Active For Life

Fill with soil and colourful flowers – you can find some great inspiration on Pinterest! This is a lovely activity for children as they can see quick results rather than waiting for something to grow. Plant some seeds. From getting their hands mucky to seeing little sprouts appear, kids will love the whole process.

A school garden can teach children many lessons in ecology, biodiversity, and conservation. Check out GEF's resources that use the garden as a place to explore sustainability education.

A collection of tips, trivia, projects, and recipes for young gardeners.

Green Thumbs for Kids is written in a simple style as a family project. Mom and Dad teach their children Rafi and Kenya how to grow flowers and vegetables. They show the kids step by step how to prepare, plant, and landscape a flower and vegetable garden. Dad and Mom test Rafi and Kenya understanding of gardening by preparing gardening activities for the kids to complete. The kids can use the activities until they are familiar with the subject matter. Dad and Mom provide the answers to all of the activities so the kids can feel free to learn the correct answers. Their objective is for Rafi and Kenya to learn the art of gardening and feel relax as they complete their gardening projects. Lastly, the book teaches the kids responsibility, team work, discipline, and the art of growing.

Kids discover traditions and skills from the people who first settled this continent, including gardening, making useful pottery, and communicating through Navajo codes.

Preschoolers will have hours of fun with this activity-packed book. There are puzzles to complete, simple mathematics, find objects, alphabets and more . A great way for kids to learn while having fun.

Gives instructions for preparing foods, making clothes, and creating other items used by European settlers in America, thereby providing a description of the daily life of these colonists.

(back panel) My Little Box of Gardening This fun-filled box is bursting with everything all little green-thumbed gardeners need! It contains a guidebook with step-by-step growing projects, and ideas for making miniature gardens. The second book has a journal, experiments to try, and great craft ideas. A trowel, gardening gloves, a sticker sheet, plant labels, pencil, plant pots, and magic growing beans are all included in this box to get you started! (call-outs on art) Project Book Journal Plant Labels Magic Beans Plant Pot Trowel Gloves

Take your students on any number of learning journeys: join Lewis and Clark on an expedition; journey into the woods with fur traders; or ride a wagon train to the Oregon Territory as you learn how the quest for gold led to a feverish migration. Experience the excitement of resettlement following the Homestead Act, and ride off to a roundup during the cowboy era. Your students will explore the West with activities such as sewing a sunbonnet, panning for gold, cooking flapjacks, singing cowboy songs, and more. Helpful illustrations are included to explain project steps.

Drawing comes with several benefits. One of these is the development of fine motor skills that will aid in the completion of tasks involving object manipulation by hand. As your child draws, he/she begins to express what he/she imagines. Objects are given careful details so features are learned. This way, you can understand what your child creates. How are your child's drawing skills now?

Travel back in time to see what life was like in ancient Greece and Rome while having fun with hands-on activities such as making a star gazer; chiseling a clay tablet; weaving Roman sandals; making a Greek mosaic; creating Roman jewelry; throwing Greek pottery; casting a vote in a Roman-style election; and much more. Learn how these civilizations contributed to our present-day world by participating in art, math, cooking, science, and geography activities. Interesting facts and trivia are included throughout. Helpful illustrations explain project steps.

Your child's mind is like a garden that needs tending. If you water it with knowledge, then it will grow and bloom. Treat this activity book as the water that helps the garden grow. There are plenty of exercises to do so there's no room for boredom. What are you waiting for? Secure a copy today!
