Accreditation is a certification of the academic quality of an institution of higher learning. Some countries require accreditation and others consider it as optional. Some countries accredit through official government agencies while others appoint independent or private organizations that oversee the whole educational accreditation process. In Malaysia, the Malaysian Qualifications Agency (MQA) is the sole responsible body to monitor the accreditation process for all Higher Education Institutions (HEIs). This manual is a standard reference to assist lecturers and teachers in preparing MQF documents. It sets to provide clear guidelines on details of how to prepare all documents necessary for MQA accreditation.

Do you need to be compliant with all the professional standards surrounding engagements performed in accordance with Statements on Standards for Accounting and Review Services (SSARS)? Written by expert authors, one of whom participated heavily in the standard setting, this title is a practice-oriented review of the latest developments related to SSARS Nos. 21, 22, and 23, the last two of which were issued in 2016. A go-to reference for training staff and managing preparation, compilation, and review engagements, this course includes case studies and lively discussion among the experienced participants, making this class informative and practical. This book helps: Identify the professional standards and risk factors relevant to the planning of preparation, compilation, and review engagements. Identify responses to preparation, compilation, and review engagement practice issues that comply with all applicable professional standards.

The JCT standard forms of building contract require a thorough understanding of their procedural requirements, as well as their legal implications. They require both the contractor and the architect, on behalf of the employer, to send a wide range of notices and letters if each party is to protect its legitimate interests. The main contract forms are also supported by complex sub-contract documentation. Therefore, it is not surprising that when this book of specimen letters, notices and forms was first published, it was widely welcomed by the construction industry. The book provides examples of documentation likely to be required for a contract under the following JCT forms: ? the Standard Form of Building Contract ? the Intermediate Form of Building Contract ? the Agreement for Minor Building Works ? the Standard Form of Building Contract With Contractor's Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched. The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants, Construction and Regeneration Act 1996, and in particular, the new payment and adjudication provisions. For the first time it features documentation for use with the JCT design and build form.

This book is part of the PostgreSQL 9.0 documentation collection (up-to-date & full), published by Fultus Corporation. PostgreSQL 9.0 includes built-in, binary replication, and over a dozen other major features which will appeal to everyone from web developers to database hackers.

Transfer pricing continues to be one of the most significant areas of heightened controversy in international taxation for multinational enterprises and tax administrations. Due to its far-reaching consequences, tax professionals and individual tax jurisdictions are required to understand the fundamentals of the topic, which is often caught in a maze of literature. Emerging from the joint research conducted by the WU Transfer Pricing Center at the Institute for Austrian and International Tax Law at WU (Vienna University of Economics and Business), the international tax law firm L&P – Ludovici Piccone & Partners, and the experiences from the annual advanced transfer pricing courses and conferences, this first edition of the book acts as a manual for understanding transfer pricing principles and their practical application. It provides a balanced approach by first detailing the basics of transfer pricing and second proceeding to specific topics that are highly relevant in today's tax environment. For the purpose of easy understanding, the book is presented in two parts: Part I: General Topics I. Introduction to Transfer Pricing II. Accurate Delineation and Recognition of Actual Transactions: Comparability Analysis III. Transfer Pricing Methods (Part I): Traditional Transaction Methods IV. Transfer Pricing Methods (Part II): Transactional Profit Methods V. Administrative Approaches to Avoiding/Minimizing Transfer Pricing Disputes VI. Administrative Approaches to Resolving Transfer Pricing Disputes VII. Transfer Pricing Documentation: Master File, Country File and Country-by-Country Reporting Part II: Specific Topics VIII. Attribution of Profits to Permanent Establishments IX. Transfer Pricing and Intra-group Services X. Transfer Pricing and Intra-group Financial Transactions XI. Transfer Pricing and Intangibles XII. Transfer Pricing, Supply Chain Management and Business Restructurings XIII. Transfer Pricing and Customs Valuation XIV. Transfer Pricing and EU State Aid In analysing the above topics, the work undertaken by the OECD, UN, EU, World Customs Organization, World Bank, International Monetary Fund and other international organizations is considered. Moreover, the book contains several practical examples, judicial precedents and illustrative explanations to complement the understanding. The book will be a catalyst for immense learning of students and young professionals who are at the introductory stage of understanding the nuances of transfer pricing. Further, the book also caters to tax lawyers, in-house tax counsels and academics working in international organizations, the business community and advisory firms as well as government officials interested in understanding transfer pricing.
