Hybridity opens up a space, figuratively speaking, where the construction of a political object that is new, neither the colonizer nor the Other, properly defies our political expectations. NATIONAL BESTSELLER • Set against London's racial and cultural tapestry, venturing across the former empire and into the past as it barrels toward the future, *White Teeth* revels in the ecstatic hodgepodge of modern life, flirting with disaster, confounding expectations, and embracing the comedy of daily existence. Zadie Smith's dazzling debut caught critics grasping for comparisons and deciding on everyone from Charles Dickens to Salman Rushdie to John Irving and Martin Amis. But the truth is that Zadie Smith's voice is remarkably, fluently, and altogether wonderfully her own. At the center of this invigorating novel are two unlikely friends, Archie Jones and Samad Iqbal. Hapless veterans of World War II, Archie and Samad and their families become agents of England's irrevocable transformation. A second marriage to Clara Bowden, a beautiful, albeit tooth-challenged, Jamaican half his age, quite literally gives Archie a second lease on life, and produces Irie, a knowing child whose personality doesn't quite match her name (Jamaican for "no problem"). Samad's late-in-life arranged marriage (he had to wait for his bride to be born), produces twin sons whose separate paths confound Iqbal's every effort to direct them, and a renewed, if selective, submission to his Islamic faith.

The autobiographical novel of a journey from the British colony of Trinidad to the ancient countryside of England.

Bhabha, in his preface, writes 'Nations, like narratives, lose their origins in the myths of time and only fully encounter their horizons in the mind's eye'. From this seemingly impossibly metaphorical beginning, this volume confronts the realities of the concept of nationhood as it is lived and the profound ambivalence of language as it is written. From Gillian Beer's reading of Virginia Woolf, Rachel Bowlby's cultural history of Uncle Tom's Cabin and Francis Mulhern's study of Leaviste's 'English ethics'; to Doris Sommer's study of the 'magical realism' of Latin American fiction and Sneja Gunew's analysis of Australian writing, Nation and Narration is a celebration of the fact that English is no longer an English national consciousness, which is not nationalist, but is the only thing that will give us an international dimension.
