This comprehensive and concise text is ideal for use with the International Baccalaureate Mathematics HL & SL courses in a clear and easy to use format. The author has developed this text after many years of teaching and examining IB Mathematics. This 2006-13 Edition of Mathematics HL & SL has been written specifically for the International Baccalaureate Syllabuses for students taking exams until November 2013. Students taking exams in May 2014 or later should buy the 2012-19 Edition instead of this one. The HL Options of Statistics and Probability, Set, Relations and Groups, and Series and Differential Equations are included. In each chapter the information relative to the topic is discussed and several examples providing various approaches to the solutions are given. The exercises provided with each section have been carefully graded from the relatively easy to the more difficult. Answers to all odd-numbered questions and some even-numbered ones are provided. The required outcomes are featured at the end of each chapter.

The landscape of international education has changed significantly in the last ten years and our understanding of concepts such as 'international', 'global' and 'multicultural' are being re-evaluated. Fully updated and revised, and now including new contributions from research in South East Asia, the Middle East, China, Japan, Australasia, and North America, the new edition of this handbook analyses the origins, interpretations and contributions of international education and explores key contemporary developments, including: internationalism in the context of teaching and learning leadership, standards and quality in institutions and systems of education the promotion of internationalism in national systems This important collection of research is an essential resource for anyone involved in the practice and academic study of international education, including researchers and teachers in universities, governmental and private curriculum development agencies, examination authorities, administrators and teachers in schools.

With more practice than any other resource, unrivalled guidance straight from the IB and the most comprehensive and correct syllabus coverage, this student book will set your learners up to excel. The only resource written with the IB curriculum team, it fully captures the IB philosophy and integrates the most in-depth assessment support.

Mathematics Standard Level for the IB Diploma is a single volume that matches the Mathematics Standard Level course of the International Baccalaureate Diploma Programme, to be taught from September 2004 for first examination in 2006. The book has been adapted in consultation with senior examiners to ensure complete and authoritative coverage of the syllabus.

If you are a teacher or student in grade 9 or 10 teaching or taking the course(s) before the IB Diploma and you intend to teach or learn Math SL-HL then this is the workbook for you. It includes detailed solutions of all the exercises. More info and free material can be found at: <http://ibmathworkbooks.webnode.es/> The content of the workbook is as follows: CHAPTER 11.1 Order of operations 1.2 Decimals and fractions 1.3 Percentages 1.4 Prime numbers LCD and GCD 1.5 Roots and rationalization 1.6 Exponents 1.7 Absolute value 1.8 Expanding and factoring 1.9 Rearranging formulae 1.10 Evaluating expressions 1.11 Systems of equations 1.12 Interval notation and inequalities 1.13 Quadratic equations and inequalities CHAPTER 22.1 Types of numbers 2.2 Significant figures 2.3 Scientific notation CHAPTER 33.1 Linear functions CHAPTER 44.1 Statistics 4.2 Frequency diagram and descriptive statistics 4.3 Probability CHAPTER 5 5.1 Geometry 5.2 Geometric transformations CHAPTER 66.1 International system of units 6.2 Common errors

Uniquely developed with the IB curriculum team, this online course book will ensure your students achieve their best. Blending mathematical applications with crucial practice and inquiry, it fully integrates the IB approach to learning. Full syllabus coverage - the truest match to the IB syllabus, developed with the IB to exactly match IB specifications Complete worked solutions - a full set of worked solutions included online Extensive practice - over 800 pages of practice cements comprehension Up-to-date GDC support - take the confusion out of GDC use and help students focus on the theory Definitive assessment preparation - exam-style papers and questions will build confidence The Exploration - supported by a full chapter, to guide you through this new component Real world approach - connect mathematics with human behaviour, language, morality and more About the series: The only DP resources developed directly with the IB, the Oxford IB Course Books are the most comprehensive core resources to

- completely covers all question-types since 1996
- exposes all "trick" questions
- makes available full set of step-by-step solution approaches
- provides examination reports revealing common mistakes & wrong habits
- easy-to-implement check-back procedure
- gives short side-reading notes
- advanced trade book
- Complete edition eBook only

Surveys the various techniques that can be used to evaluate students' learning, including summative, diagnostic, and formative approaches and the assessment of specific skills

The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

Enable students to construct, communicate and justify correct mathematical arguments, with a range of activities and examples of maths in the real world. - Engage and excite students with examples and photos of maths in the real world, plus inquisitive starter activities to encourage their problem-solving skills - Build mathematical thinking with our 'Toolkit' and mathematical exploration chapter, along with our new toolkit feature of questions, investigations and activities - Develop understanding with key concepts and applications integrated throughout, along with TOK links for every topic.
