A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That’s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That’s where Will’s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother’s gun. He gets on the elevator, seventh floor, stoked. He knows who he’s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that’s when Will sees that one bullet is missing. And the only one who could have fired Shawn’s gun was Shawn. Huh. Will didn’t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck’s in the elevator? Just as Will’s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck’s cigarette. Will doesn’t know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

On October 28th 1890 the great wall of the Barsdon Dam gave way, and the Eagle Star reservoir buried the small Arizona town of Jackson Hope under forty feet of water. Men, women and children perished in the devastating flood, nobody survived. For over a hundred years the town lay forgotten at the bottom of a vast lake, but it has been a particularly harsh summer in Arizona, and the town is starting to emerge. Experts will come and survey the land, hoping to prospect for a bright and lucrative new project, but they will get more than they bargained for. Bit by bit they will uncover the truth behind the disaster which wiped a small farming community off the map, and as they do they will learn with devastating consequences that some secrets should stay buried forever.

This book will teach developing as well as ministering Christians the importance of making a more conscious effort to bless and help others. The purpose of this book is to help Christians deepen their understanding of the word “blessing” – what it means to be “blessed” and what it means to “be a blessing” to others. The goal is also to create a sense of urgency and inspire believers to help and serve others with greater enthusiasm - like never before.

"What are you, some kinda PSYCHO?" How many times have you said this to someone? Probably a lot. How often has someone said this to you? Hopefully, not so much! Truth is, we've all dated or been involved with someone who drove us nuts or, if we haven't, chances are that we were the ones who got on the other person's nerves. Now, the question is: who is the Psycho; you or the other person? Don't Date a Psycho: Don't Be One, Don't Date One looks at why we behave in the ways that we do in relationships, what makes us stay with the person we're with and what makes us leave them, and how to tell who is safe to be in a relationship with and who is unsafe. Done with humor and written from more than two decades of clinical experience as a psychologist, Dr. Keiron Brown helps us to gain a clearer understanding of who we are as individuals, who we are as partners in relationships and what makes each and every one of us prone to acting a little nuts sometimes when our hearts are at stake.

Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their

Some Halloween horrors are found in the dusty crannies of haunted houses, like the sinister soulbound doll or the anguished loneliness of the attic whisperer, or may stalk the shadowed lanes of civilized places stealing what others hold most dear like the silent shadow collector. Of course, beyond the threshold of midnight treads the stuff of purest nightmare come to deadly unlife in the form of the crawling host of the deathweb or the entropic shadows of the soaring nightwing. The book begins with an educational theory guide, to help deepen your understanding of why your horse is acting the way he does and what his motivating factors are. Following the theory guide are over 77 Solutions for herd bound behavior. Included in these solutions are exercises divided into sections individualized to how your horse is kept; Stall, Pasture, Pair bonded, etc. It also includes strategies for riding, Emergency "In the moment" solutions and pages to record your progress on. These strategies can be used with each member of the herd, this is most valuable in situations where a single buddy horse is left behind. By using the exercises, programs and approaches you can create horses that are more self confident and able to be separated with more ease and relaxation. I am incredibly excited to get this information in the hands of horse lovers who struggle with this frustrating and destructive issue! There is nothing more peaceful then hearing horses munching on grass instead of screaming for their herd mate!
