A tractor repair manual written for the experienced mechanic by professionals in an easy-to-use format , including numerous photos, illustrations and exploded views.

Reading is a many-faceted subject. A book on the topic may, like many, be a description of the physiological steps one takes in performing the process called reading. More commonly, it is a manual, describing the methods a teacher may use in teaching schoolage children to acquire the mechanical aspects of reading. Some, far fewer, are focused on the psychology of reading, such psychology usually emphasizing the conscious and logical approaches to learning. Still others are directed toward some particular part of reading in its socio-historical setting, as for example, freedom to read, or adult reading habits, or variation in trends in the production of materials. All books of such nature are relevant to the omnibus topic-reading. A book which would include reading in its historical, sociological, and educational setting would
