This comprehensive and concise book critically examines the essential principles, practices and approaches to financial accounting, cost and management accounting, and financial management. This book is intended for the postgraduate students of management and commerce. Besides, it is equally useful for the students of engineering and technology. The objective of this book is to assist the students and readers in developing an understanding of the theories of various branches of accounting and financial management, and to integrate the knowledge with practice in evaluating the strategic management decisions. The book contains thirty-three chapters divided into three parts. Part A comprising ten chapters discusses the key principles and practices of financial accounting. Part B containing eight chapters explains various methods and techniques of cost and management accounting. Part C comprising fifteen chapters provides an insight into the numerous dimensions of financial management policies and practices. Key Features • A systematic presentation of the subject matter, supported with substantial number of Examples, Diagrams and Tables for easy understanding. • The topics of ' Accounting for Fixed Assets ' (Chapter 4), ' Depreciation Accounting ' (Chapter 5), ' Revenue Recognition ' (Chapter 6), ' Accounting for Inventories ' (Chapter 8) and ' Cash Flow Statement ' (Chapter 20) have been written thoroughly in accordance with the Accounting Standards (AS) issued by the ICAI. • Review questions covering examination problems and their answers are given at the end of each chapter. The detailed answers are available in the Instructors ' Manual. • An exhaustive glossary of terms have been provided to explain the core concepts. • Solutions Manual is also available.

Learn all the basic concepts and fundamental skills that an LPN/LVN needs! Fundamental Concepts and Skills for Nursing, 6th Edition prepares you for nursing practice in a number of care settings, including hospitals, long-term care facilities, medical offices, clinics, surgery centers, and home care agencies. Illustrated, easy-to-read guidelines ensure that you gain a thorough understanding of the nursing process and problem solving, addressing topics such as the physiologic and psychosocial needs of the patient, critical thinking and clinical judgment, communication, collaboration with the health care team, patient teaching, and cultural competence. Written by noted educator Patricia Williams, this text prepares you to pass the Next Generation NCLEX-PN® Exam and succeed in any care setting.

Primarily designed for medical students, this book would be equally useful to postgraduates and practitioners in surgery. It presents superbly illustrated, authoritative yet simple exposition of the various operative techniques and laparoscopic procedures in addition to common ward procedures, suture materials, specimens and instruments.

This book covers all aspects of thyroid cancer. Heavily illustrated and including pathology, thyroid and whole-body scans, ultrasounds and other nuclear medicine and radiological studies, the book addresses important issues that physicians should cover when dealing with their patients. The text is designed for physicians, endocrinologists, nuclear medicine physicians, general and head and neck surgeons, oncologists and radiation oncologists, and primary care doctors. Other groups are residents, medical students, and nurse practitioners researching a patient-related problem.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- It's not about "them", it's about all of us. Abnormal Psychology, 8/e brings both the science and personal aspects of abnormal psychology to life with a focus on evidence-based practice and emerging research. Authors Thomas F. Oltmanns and Robert E. Emery present the most cutting edge information on abnormal psychology by covering methods and treatment in context. Organized around the way students learn, this title helps readers understand the biological, psychological, and social perspectives of abnormal psychology. The 8th edition has been updated to include DSM-5 information throughout. The authors have integrated DSM-5 into the fabric of every chapter in a thorough, critical way, helping readers think critically about these changes and discuss the pros and cons of the DSM diagnostic systems. MyPsychLab is an integral part of the Oltmanns / Emery program. Engaging activities and assessments provide a teaching and learning system that helps students think like a explore abnormal psychology. With MyPsychLab, students can develop critical thinking skills through writing, simulate classic experiments and surveys, watch videos on research and applications, and explore the Visual Brain in 3-D. This title is available in a variety of formats – digital and print. Pearson offers its titles on the devices students love through Pearson's MyLab products, CourseSmart, Amazon, and more. 0205997945 / 9780205997947 Abnormal Psychology Plus NEW MyPsychLab with Pearson eText -- Access Card Package Package consists of: 0205206514 / 9780205206513 NEW MyPsychLab with Pearson eText -- Valuepack Access Card 0205970745 / 9780205970742 Abnormal Psychology
