Lightships, Lighthouses and Lifeboat Stations is part history book, part memoir, written by Bernie Webber, recipient of the Coast Guard's highest award, the Gold Life-saving Medal, and hero of the Disney movie The Finest Hours. While the public will recognize Webber's name from the movie and the bestselling book by the same name, few people know that during his lengthy Coast Guard career he served on lightships (ships anchored in dangerous areas to warn other vessels of hazards) in addition to lifeboat stations (small boat rescue stations) and lighthouses. Webber poses the following question: "How did the lightship men cope with the isolation, constant loneliness, boredom, fear, or just sheer terror? All were part of life on board a lightship. Rough seas tossed the ship about, rearing up and down the anchor chain. This was a world of isolation, noise from operating machinery, and blasts from the powerful

foghorn that went on for hours, sometimes days, at a time." Webber answers that question in this book, drawing on a combination of personal experience and meticulous historical research. Discussions of men going mad, lightships being run down by larger ships, anchor chains breaking, and lightships cast upon shoals are offset with humorous stories and the author's reflections on his best days at sea. Webber also explains some of the heroic actions of a few lightship men over the years, and points out that they received no recognition at the time. The isolation these men faced was intense, but they learned to make do with what they had. Fourteen historic photos are included, as well as a Foreword by Michael Tougias.

Lighthouses, with their bright, intense beacons of light, were built to guide ships and boats of all kinds, helping to protect them from disaster. Every lighthouse has its own unique story of shipwrecks, heroic rescues, romance, and even ghosts. All lighthouses shown in these books have been preserved and can be seen or visited. These coloring books will amuse, entertain, and educate children of all ages and anyone who is fascinated by these historical towers of light.

"A novel set on a remote Australian island, where a childless couple live quietly running a lighthouse, until a boat carrying a baby washes ashore"--

"What Moby-Dick is to whales, Brilliant Beacons is to lighthouses—a transformative account of a familiar yet mystical subject." —Laurence Bergreen, author of Columbus: The Four Voyages In this "magnificent compendium" (New Republic), best-selling author Eric Jay Dolin presents the definitive history of American lighthouses, and in so doing "illuminate[s] the history of America itself" (Entertainment Weekly). Treating readers to a memorable cast of characters and "fascinating anecdotes" (New York Review of Books), Dolin shows how the story of the nation, from a regional backwater colony to global industrial power, can be illustrated through its lighthouses—from New England to the Gulf of Mexico, the Great Lakes, the Pacific Coast, and all the way to Alaska and Hawaii.
