It's a Fender Strat, Made in Korea, CN2xxxx serial #. No mention or sign of Squier branding. CN2 means it was made in the Cort factory circa 1992. Some guitars had a Squier series sticker that owners would sand off. Not sure if that is the case here. Fender did produce an Ash model Strat in the Korean Cort factory in the mid 2000s that wasn't ...

Made in Korea - Shop at Korea

In 2016, South Korea's exports amounted to US \$495.5 billion, a whopping 36.3 percent increase since 2009. Considering the nation has very few natural resources, these numbers say a lot about its people and the products that they make, not to mention the increasing global demand for Korean-made goods.

Frankly in Love meets Shark Tank in this feel-good romantic comedy about two entrepreneurial Korean American teens who butt heads—and maybe fall in love—while running competing Korean beauty businesses at their high school. There's nothing Valerie Kwon loves more than making a good sale. Together with her cousin Charlie, they run V&C K-BEAUTY, their school's most successful student-run enterprise. With each sale, Valerie gets closer to taking her beloved and adventurous halmoeoni to her dream city, Paris. Enter the new kid in class, Wes Jung, who is determined to pursue music after graduation despite his parents' major disapproval. When his classmates clamor to buy the K-pop branded beauty products his mom gave him to “make new friends,” he sees an opportunity—one that may be the key to help him pay for the music school tuition he knows his parents won't cover... ?What he doesn't realize, though, is that he is now V&C K-BEAUTY's biggest competitor. Stakes are high as Valerie and Wes try to outsell each other, make the most money, and take the throne for the best business in school—all while trying to resist the undeniable spark that's crackling between them. From hiring spies to all-or-nothing bets, the competition is much more than either of them bargained for. But one thing is clear: only one Korean business can come out on top.

Made in Korea: Studies in Popular Music serves as a comprehensive and thorough introduction to the history, sociology, and musicology of contemporary Korean popular music. Each essay covers the major figures, styles, and social contexts of pop music in Korea, first presenting a general description of the history and background of popular music in Korea, followed by essays, written by leading scholars of Korean music, that are organized into thematic sections: History, Institution, Ideology; Genres and Styles; Artists; and Issues.

American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

A QUICKSTART GUIDE FOR YOUR PROXY STEP 1: Remove box. STEP 2: Power on. STEP 3: Raise your child. For Jesse, the world's first true A.I. system, growing up means learning to think outside the box. This exciting new six-issue miniseries will redefine what it means to be a family in an age when biological parenthood is no longer a reality.

North Korea uncensored and unfiltered – ordinary life in the world's most secretive nation, captured in never-before-seen ephemera. Made in North Korea uncovers the fascinating and surprisingly beautiful graphic culture of North Korea - from packaging to hotel brochures, luggage tags to tickets for the world-famous mass games. From his base in Beijing, Bonner has been running tours into North Korea for over twenty years, and along the way collecting graphic ephemera. He has amassed thousands of items that, as a collection, provide an extraordinary and rare insight into North Korea's state-controlled graphic output, and the lives of ordinary North Koreans.

Korea's experience of rapid economic growth represents both hope and a challenge to many developing countries. The conventional wisdom inside and outside Korea has been that the government's policies such as export promotion, industrial targeting, and so on, made the rapid growth possible. This book investigates the effects of the policies and concludes that Korea's growth experience does not corroborate the view. Rather, it points to the tremendous growth in size of the world market as an important factor that has been overlooked in the discussion of nations' economic growth in the post-World War II era. It was roughly 100 times bigger in the early 1960s than it was in the middle of the First Industrial Revolution. The potential "gains from trade" were that much greater; while the Korean economy had not been realizing the potential gains, it began to as soon as a major reform of the foreign exchange system in 1961 removed the impediments to foreign trade. Explosive export expansion and rapid growth of the economy immediately followed. The "Korean Miracle" may be better understood as a process whereby the economy realized its huge potential.

This "100% Made In South Korea" customised note book would make a great gift idea for patriotic South Koreans! The item contains 108 pages of 6" x 9" half-lined and half-blank paper, ideal for home, work or school purposes such as: To-do lists Appointment reminders and event dates Work notes Studying Shopping lists Meal plans Creative writing Gratitude diary Daily journal The note book could be bought for a number of special occasions, such as a birthday, Christmas, anniversary or thank you present. We would like to thank you very much for your interest in the note book and hope you make good use of it!

A Korean nine-year-old named Jesse is adopted and sent to live with a lovely couple in America. Equipped with a seemingly encyclopedic brain but socially awkward, the young girl's journey through the complexities of race, gender, and identity hits a fork in the road when she discovers she's not entirely human...yet. Adolescence just got a lot more emotional for the world's first true A.I. system. Collects MADE IN KOREA #1-6
