The definitive history of Asian Americans by one of the nation's preeminent scholars on the subject. In the past fifty years, Asian Americans have helped change the face of America and are now the fastest growing group in the United States. But as award-winning historian Erika Lee reminds us, Asian Americans also have deep roots in the country. The Making of Asian America tells the little-known history of Asian Americans and their role in American life, from the arrival of the first Asians in the Americas to the present-day. An epic history of global journeys and new beginnings, this book shows how generations of Asian immigrants and their American-born descendants have made and remade Asian American life in the United States: sailors who came on the first trans-Pacific ships in the 1500s; indentured "coolies" who worked alongside African slaves in the Caribbean; and Chinese, Japanese, Filipino, Korean, and South Asian immigrants who were recruited to work in the United States only to face massive racial discrimination, Asian exclusion laws, and for Japanese Americans, incarceration during World War II. Over the past fifty years, a new Asian America has emerged out of community activism and the arrival of new immigrants and refugees. No longer a "despised minority," Asian Americans are now held up as America's "model minorities" in ways that reveal the complicated role that race still plays in the United States. Published to commemorate the fiftieth anniversary of the passage of the United States' Immigration and Nationality Act of 1965 that has remade our "nation of immigrants," this is a new and definitive history of Asian Americans. But more than that, it is a new way of understanding America itself, its complicated histories of race and immigration, and its place in the world today.

NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • ONE OF TIME'S 100 MOST INFLUENTIAL PEOPLE • A ruthlessly honest, emotionally charged, and utterly original exploration of Asian American consciousness "Brilliant . . . To read this book is to become more human." Claudia Rankine, author of Citizen In development as a television series starring and adapted by Greta Lee • One of Time's 10 Best Nonfiction Books of the Year • Named One of the Best Books of the Year by The New York Times, The Washington Post, NPR, New Statesman, BuzzFeed, Esquire, The New York Public Library, and Book Riot Poet and essayist Cathy Park Hong fearlessly and provocatively blends memoir, cultural criticism, and history to expose fresh truths about racialized consciousness in America. Part memoir and part cultural criticism, this collection is vulnerable, humorous, and provocative—and its relentless and riveting pursuit of vital questions around family and friendship, art and politics, identity and individuality, will change the way you think about our world. Binding these essays together is Hong's theory of "minor feelings." As the daughter of Korean immigrants, Cathy Park Hong grew up steeped in shame, suspicion, and melancholy. She would later understand that these "minor feelings" occur when American optimism contradicts your own reality—when you believe the lies you're told about your own racial identity. Minor feelings are not small, they're dissonant—and in their tension Hong finds the key to the questions that haunt her. With sly humor and a poet's searching mind,

Hong uses her own story as a portal into a deeper examination of racial consciousness in America today. This intimate and devastating book traces her relationship to the English language, to shame and depression, to poetry and female friendship. A radically honest work of art, *Minor Feelings* forms a portrait of one Asian American psyche—and of a writer's search to both uncover and speak the truth. Praise for *Minor Feelings* "Hong begins her new book of essays with a bang. . . . The essays wander a variegated terrain of memoir, criticism and polemic, oscillating between smooth proclamations of certainty and twitches of self-doubt. . . . *Minor Feelings* is studded with moments [of] candor and dark humor shot through with glittering self-awareness." *The New York Times* "Hong uses her own experiences as a jumping off point to examine race and emotion in the United States." *Newsweek* "Powerful . . . [Hong] brings together memoiristic personal essay and reflection, historical accounts and modern reporting, and other works of art and writing, in order to amplify a multitude of voices and capture Asian America as a collection of contradictions. She does so with sharp wit and radical transparency." *Salon*

Clarence Thomas is one of the most vilified public figures of our day. To date, however, his legal philosophy has received only cursory treatment. *First Principles* provides a portrait of Thomas based not on the justice's caricatured reputation, but on his judicial opinions and votes, his scholarly writings, and his public speeches. The paperback edition includes a provocative new Afterword by the author bringing the book up to date by assessing Justice Thomas's performance, and the reaction to his decisions, during the last five years.

*Asian Americans* adopts the unique approach of examining the issues, and often obstacles, specific to Asian immigrants into the United States, such as occupational and economic adjustment, intermarriage and settlement patterns. The Second Edition has been updated to include information derived from the 2000 US Census.

This widely adopted text synthesizes an extensive body of research on Asian American personality development, identity, and mental health. *Uba* focuses on how ethnocultural factors interact with minority group status to shape the experiences of members of diverse Asian American groups. Cultural values and norms shared by many Asian Americans are examined and common sources of stress described, including racial discrimination and immigrant and refugee experiences. Rates of mental health problems in Asian American communities are reviewed, as are predictors and manifestations of specific disorders. The volume also explores patterns in usage of available mental health services and considers ways that service delivery models might be adapted to better meet the needs of Asian American clients.
