Turns out, Memorex makes a really nice and functional bedside combo - the MC7223 for about \$35 and it does all, plus more than the item I reviewed. And, when the CD stops playing, the view of the clock returns (which, per my review above, the above item does not do.) I highly recommend the MC7223 and will post a review on Amazon.

The Memorex - CD Alarm Clock Radio is definitely functional. I had to buy it in a hurry when my other one broke. This was the only type left at BB after BB had a sale on alarm clock radios. The radio works fine, unless there is interference with the antenna and then the sound can get fuzzy.

The sister of Bram Stoker and the niece of Sherlock Holmes investigate missing girls and murder in this steampunk fantasy mystery series opener. Evaline Stoker and Mina Holmes never meant to get into the family business. But when you're the sister of Bram and the niece of Sherlock, vampire hunting and mystery solving are in your blood. And when two society girls go missing, there's no one more qualified to investigate. Now fierce Evaline and logical Mina must resolve their rivalry, navigate the advances of not just one but three mysterious gentlemen, and solve murder with only one clue: a strange Egyptian scarab. The stakes are high. If Stoker and Holmes don't unravel why the belles of London society are in such danger, they'll become the next victims. Praise for The Clockwork Scarab "With its fog-shrouded setting, its heart-racing and clever plot and, most of all, its two completely delightful, kick-butt heroines, The Clockwork Scarab is pure, delicious fun from beginning to end." -Rachel Hawkins, New York Times-bestselling author of the Hex Hall series "The author's writing exudes energy, romance, and humor, and she gives her heroines strong, vibrant personalities as they puzzle out the expansive mystery unfolding before them." -Publishers Weekly "The mishmash of popular tropes (steampunk! vampires! Sherlock Holmes!) will bring readers in, but it's the friendship between the two girls that will keep them." -Kirkus Reviews "This book has it all: plot, setting, character development All in all, the vivid setting and the finely drawn, compelling heroines make this a fine choice for readers who like their stories with steampunk spice and smart, strong women." -School Library Journal

"Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter...The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal "The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." -City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart. "St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."

Learn statistical reasoning and problem solving from a master! Praised for his clear explanations, Spatz shows you how to start with a data set, identify the questions it can answer, determine appropriate statistical procedures, carry them out, and then, using plain English, tell the story the data reveal. You'll be on the way to statistical understanding before you know it! Book jacket.
