Exercises for the Microbiology Laboratory, Fourth Edition by Michael J. Leboffe and Burton E. Pierce is an inexpensive, black-and-white manual that provides a concise and flexible alternative to other large microbiology laboratory manuals. It can be used by itself as a required lab text, but is also designed to be used in conjunction with A Photographic Atlas for the Microbiology Laboratory.

Laboratory Applications in Microbiology: A Case Study Approach uses real-life case studies as the basis for exercises in the laboratory. This is the only microbiology lab manual focusing on this means of

instruction, an approach particularly applicable to the microbiology laboratory. The author has carefully organized the exercises so that students develop a solid intellectual base beginning with a particular technique, moving through the case study, and finally applying new knowledge to unique situations beyond the case study.

"Microbiology covers the scope and sequence requirements for a single-semester microbiology course for non-majors. The book presents the core concepts of microbiology with a focus on applications for careers in allied health. The pedagogical features of the text make the material interesting and accessible while maintaining the career-application focus and scientific rigor inherent in the subject matter. Microbiology's art program enhances students' understanding of concepts through clear and effective
