This booklet contains typical midterm and final exams that you may encounter in any Calculus I course (for non-Math majors) at just about any university in North America. Calculus I course typically covers the following topics: limits of functions, continuity, derivatives, related rates, maxima and minima (local and global/absolute), the Extreme Value Theorem, the Mean Value Theorem (MVT), indefinite integrals, and the Fundamental Theorem of Calculus. If you are preparing for a Calculus exam, or are reviewing the material from Calculus I, or are thinking about taking this course, this booklet will be quite useful. Note that it is expected that you solve the midterm and final exams in this booklet within one and two hours, respectively. You should first attempt all problems on your own and then check your answers using the respective answer key. You should not be looking at solutions before that. This is the best way for you to learn. Good luck!

Award-winning author Amy Goldman Koss explores what happens when one bad decision threatens to destroy everything. Cheating on a geography midterm is only the beginning. It seemed simple enough—they were given the answers from last year's test and they used them. But Sarah and her friends got caught, and what was done without much thought leads to greater and greater consequences. Now they are facing punishment at school, tension at home, and no one is sure how or when it will end. "An excellent springboard to provocative discussion or debate about the moral and ethical questions that this issue raises."—School Library Journal

This is a collection of essays I've written through the years reflecting on my teaching journey in a northern Canadian community college. They are interwoven with memories about my earlier Alberta government researcher's job and my first teaching experience in Cebu, Philippines. Also intertwined with them are remembrances of my family, friends, colleagues and benefactors. It is a social history memoir that touches on a number of contemporary Canadian, Native Peoples and Philippine history. It's an invitation for teachers and newcomers in a place to reflect on their own comparable journeys while walking with me through my experiences integrating my minority status as a woman of colour in the academic world and the Canadian cultural mosaic where I sought and found acceptance, respect and even affection. My observations about teaching, family, friendship, the arts, health concerns, majority and minority relations and transformation resonate with the abiding belief of social scientists in humankind's oneness in mind and spirit. They are timely reminders that, in an increasingly fractious world, we are better off engaging with each other grounding ourselves in honesty, civility and compassion as we share space and help navigate this magnificent boat called Earth.
