The 11th Edition of Modern Carpentry - Essential Skills for the Building Trades includes two new chapters, covering framing with steel and the building of decks and porches, as well as numerous text and illustration changes to depict current materials and practices. The text provides detailedcoverage of all aspects of light frame construction, including site preparation and layout; foundations; framing and sheathing; roofing; windows and doors; exterior finish; stairs; cabinetry, and finishing procedures for interior walls, floors, and ceilings. Beyond a solid discussion of building basics, Modern Carpentry covers special topics such as constructing stairs, chimneys, fireplaces, and decks. Systems-built (prefabricated) houses, remodeling, cabinet installation, solar construction, and painting and decorating are also covered. To familiarize carpentry students with other aspects of the building trades, the text includes chapters on mechanical systems: electrical, plumbing, and HVAC. Throughout the text, safe working practices are emphasized, and special attention is paid to proper use of the latest tools, materials, andprefabricated components.* Chapters are arranged in a logical sequence, similar to the order in which the phases of building construction are performed. * Includes many step-by-step procedures set as boxed features. * Uses clear, nontechnical language and detailed illustrations to provide the most easy-to-understand presentation of any carpentry book on the market. * Provides useful career information in a dedicated chapter and more than 20 "On-the-Job" features throughout the book that describe specific building trades occupations. * Provides detailed coverage of both residential and light commercial construction. This bundle includes a copy of the Student Text and an Online Text (6-Year Classroom Subscription). Students can instantly access the Online Text with browser-based devices, including iPads, netbooks, PCs, and Mac computers.With G-W Online Textbooks, students easily navigate linked table of contents, search specific topics, quickly jump to specific pages, enlarge for full-screen reading mode, and print selected pages for offline reading.

Organized to follow the textbook on a chapter-by-chapter basis, providing questions to help the student review the material presented in the chapter. This supplement is a consumable resource, designed with perforated pages so that a given chapter can be removed and turned in for grading or checking.

Modern Carpentry is a colorful, easy-to-understand source of authoritative and up-to-date information on building materials and construction methods. The text provides detailed coverage of all aspects of light frame construction, including site preparation and layout; foundations; framing; sheathing; roofing; windows and doors; exterior finish; and interior wall, floor, and ceiling finish. Special emphasis is placed on the use of modern tools, materials, and prefabricated components in the application of interior trim, and the construction of stairs and cabinetwork.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The 11th Edition of Modern Carpentry - Essential Skills for the Building Trades includes two new chapters, covering framing with steel and the building of decks and porches, as well as numerous text and illustration changes to depict current materials and practices. The text provides detailedcoverage of all aspects of light frame construction, including site preparation and layout; foundations; framing and sheathing; roofing; windows and doors; exterior finish; stairs; cabinetry, and finishing procedures for interior walls, floors, and ceilings. Beyond a solid discussion of building basics, Modern Carpentry covers special topics such as constructing stairs, chimneys, fireplaces, and decks. Systems-built (prefabricated) houses, remodeling, cabinet installation, solar construction, and painting and decorating are also covered. To familiarize carpentry students with other aspects of the building trades, the text includes chapters on mechanical systems: electrical, plumbing, and HVAC.
