Following on from his hugely successful books, Moab is My Washpot and The Fry Chronicles, comes the third chapter in Stephen Fry's life. This unabridged, downloadable audiobook edition of More Fool Me is performed by Stephen Fry himself.

More Fool Me (Memoir #3) by Stephen Fry - Goodreads

But More Fool Me - oh dear. I have some insight into addiction, and this was painful to read - not because of its subject matter, or because of Fry's own suffering, but because it revelled in his addiction - he recounts stories that should fill him with horror at the recollection but are instead presented with a "silly old Stephen" artifice that is shockingly insincere. His recounting of his ...

More Fool Me by Stephen Fry – digested read ...

Fry reading his own diary is an unexpected delight. And the fact that it was written at a time when projects like Black Adder, Jeeves and Wooster and A Bit of F&L were being worked on, makes it even better. To know exactly what mischief Stephen was getting up to the day he filmed the finale of Black Adder, that's fascinating.

Stephen Fry offers a vision of autobiographical hell from his latest memoir

By his early thirties, Stephen Fry—writer, comedian, star of stage and screen—had, as they say, “made it.” Much loved on British television, author of a critically acclaimed and bestselling first novel, with a glamorous and glittering cast of friends, he had more work than was perhaps good for him. As the '80s drew to a close, he began to burn the candle at both ends. Writing and recording by day, and haunting a never-ending series of celebrity parties, drinking dens, and poker games by night, he was a high functioning addict. He was so busy, so distracted by the high life, that he could hardly see the inevitable, headlong tumble that must surely follow . . . Filled with raw, electric extracts from his diaries of the time, More Fool Me is a brilliant, eloquent account by a man driven to create and to entertain—revealing a side to him he has long kept hidden.

Stephen Fry invites readers to take a glimpse at his life story in the unputdownable More Fool Me. 'Oh dear I am an arse. I expect there'll be what I believe is called an "intervention" soon. I keep picturing it. All my friends bearing down on me and me denying everything until my pockets are emptied. Oh the shame' In his early thirties, Stephen Fry - writer, comedian, star of stage and screen - had, as they say, 'made it'. Much loved in A Bit of Fry and Laurie, Blackadder and Jeeves and Wooster, author of a critically acclaimed and bestselling first novel, The Liar, with a glamorous and glittering cast of friends, he had more work than was perhaps good for him. What could possibly go wrong? Then, as the 80s drew to a close, he discovered a most enjoyable way to burn the candle at both ends, and took to excess like a duck to breadcrumbs. Writing and recording by day, and haunting a never ending series of celebrity parties, drinking dens, and poker games by night, in a ludicrous and impressive act of bravado, he fooled all those except the very closest to him, some of whom were most enjoyably engaged in the same dance. He was - to all intents and purposes - a high functioning addict. Blazing brightly and partying wildly as the 80s turned to the 90s, AIDS became an epidemic and politics turned really nasty, he was so busy, so distracted by the high life, that he could hardly see the inevitable, headlong tumble that must surely follow . . . Containing raw, electric extracts from his diaries of the time, More Fool Me is a brilliant, eloquent account by a man driven to create and to entertain - revealing a side to him he has long kept hidden. Stephen Fry is an award-winning comedian, actor, presenter and director. He rose to fame alongside Hugh Laurie in A Bit of Fry and Laurie (which he co-wrote with Laurie) and Jeeves and Wooster, and was unforgettable as Captain Melchett in Blackadder. He also presented Stephen Fry: The Secret Life of the Manic Depressive, his groundbreaking documentary on bipolar disorder, to huge critical

Where To Download More Fool Me Stephen Fry Msrint

acclaim. His legions of fans tune in to watch him host the popular quiz show *QI* each week.

But when he arrived at Cambridge he was a convicted thief, an addict, and a failed suicide, convinced that he would be expelled. Instead, university life offered him love and the chance to entertain. He befriended bright young things like Hugh Laurie, now the star of *House*, and Emma Thompson. This is the hilarious and utterly compelling story of how the Stephen the world knows (or thinks it knows) took his first steps in the worlds of theater, radio, television, and film. Tales of scandal and champagne jostle with insights into hard-earned stardom. *The Fry Chronicles* is not afraid to confront the chasm that separates public image from private feeling, and it is marvelously rich in trademark wit and verbal brilliance.

The British author and actor shares his own entertaining gay coming-of-age story, from his tumultuous youth, to the teenage love affair with a fellow schoolboy that had a profound impact on his life, to the attempted suicide, delinquency, and madness that followed. 20,000 first printing.

Literary ombudsman John Crace never met an important book he didn't like to deconstruct. From Salman Rushdie to John Grisham, Crace retells the big books in just 500 biting satirical words, pointing his pen at the clunky plots, stylistic tics and pretensions to Big Ideas, as he turns publishers' golden dream books into dross. In the grand tradition of Tom Lehrer and Stan Freberg, Crace takes the books that produce the most media hype and retells each story in its author's inimitable style. Philip Roth, Don DeLillo, Margaret Drabble, Paul Auster, Alice Sebold, John Updike, Tom Wolfe, Ruth Rendell, A.S. Byatt, John LeCarre, Michael Crichton and Ian McEwan all emerge delightfully scathed in this book that makes it easy to talk knowingly about books you've never bothered to read or, for that matter, should have.

On Liberty is the story of today's threats to our freedoms and a highly personal, impassioned plea in defence of fundamental rights, from Shami Chakrabarti, Britain's leading human rights campaigner. On 11 September 2001, our world changed. The West's response to 9/11 has morphed into a period of exception. Governments have decided that the rule of law and human rights are often too costly. In *On Liberty*, Shami Chakrabarti explores why our fundamental rights and freedoms are indispensable. She shows, too, the unprecedented pressures those rights are under today. Drawing on her own work in high-profile campaigns, from privacy laws to anti-terror legislation, Chakrabarti shows the threats to our democratic institutions and why our rights are paramount in upholding democracy. 'Probably the most effective public affairs lobbyist of the past 20 years' - David Aaronovitch, *The Times* 'The undaunted freedom fighter' - *Observer* 'The most dangerous woman in Britain' - *Sun*

This "terrific" novel of alternate history asks: What if Hitler had never been born? (*The Washington Post*). Michael Young is a graduate student at Cambridge who is completing his dissertation on the early life of Adolf Hitler. Leo Zuckermann is an aging German physicist haunted by the Holocaust. Together, they idealistically embark on an experiment to change the course of history. And with their success is launched a brave new world that is in some ways better than ours—but in most ways even worse.

An "outrageously hilarious" novel about a young man who has trouble with the truth (*The Boston Globe*). Adrian Healey loves to lie. He does it all the time. Every minute, every moment. And worse, he does it wonderfully, imaginatively, brilliantly. He lies to buck the system, to express his contempt for convention, but mostly because he just plain likes to. It's fun. He invents a lost pornographic novel by Charles Dickens, and, for himself, a career as a Piccadilly rent boy, hireable by the hour. But Adrian's lies eventually bring true danger, as he finds himself caught up in the machinations of a shadowy network that puts his own life at risk, in this "clever and entertaining novel that will appeal to Anglophiles with a twisted sense of humor" (*Library Journal*).

Comedian and actor Stephen Fry's witty and practical guide, now in paperback, gives the aspiring poet or student the tools and confidence to write and understand poetry. Stephen Fry believes that if one can speak and read English, one can write poetry. In *The Ode Less Travelled*, he invites readers to discover the delights of writing poetry for pleasure and provides the tools and confidence to get started. Through enjoyable exercises, witty insights, and simple step-by-step advice, Fry introduces the concepts of Metre, Rhyme, Form, Diction, and Poetics. Most of us have never been taught to read or write poetry, and so it can seem mysterious and intimidating. But Fry, a wonderfully competent, engaging teacher and a writer of poetry himself, sets out to correct this problem by explaining the various elements of poetry in simple terms, without condescension. Fry's method works, and his enthusiasm is contagious as he explores different forms of poetry: the haiku, the ballad, the villanelle, and the sonnet, among many others. Along the way, he introduces us to poets we've heard of but never read. *The Ode Less Travelled* is not just the survey course you never took in college, it's a lively celebration of poetry that makes even the most reluctant reader want to pick up a pencil and give it a try.

Now a major motion picture: A "deliciously wicked and amusing" tale of a cranky curmudgeon investigating strange goings-on at an English country house (*The New York Times*). "I've suffered for my art, now it's your turn." So begins the story of Ted Wallace, unaffectionately known as the Hippopotamus. Failed poet, failed theater critic, failed father and husband, Ted is a shameless womanizer, drinks too much, and is at odds in his cranky but maddeningly logical way with most of modern life. Fired from his job at the newspaper, Ted seeks a few months' repose and free liquor at Swafford Hall, the country mansion of his old friend Michael Logan. This world of boozy dinners, hunting parties, and furtive liaisons has recently been turned on its head by miracles, healings, and phenomena beyond Ted's comprehension. As the mysteries deepen, *The Hippopotamus* builds into a rollicking sendup of the classic British mystery that is "tremendously funny" (*Christopher Buckley*) and a "near-perfect book" (*Entertainment Weekly*). The basis for the recent movie starring Roger Allam, Matthew Modine, and Fiona Shaw, "The Hippopotamus is animated by an antic sense of comedy and features a willfully feckless hero . . . Described in uproarious terms that suggest Wodehouse crossed with Waugh, Swafford emerges as a parody of every upper-class country house ever depicted in an English novel" (*The New York Times*).
