~~Musui's Story: The Autobiography of a Tokugawa Samurai ...~~

Musui's Story is an autobiography about a samurai during the Tokugawa era in Japan. To be perfectly honest, I found the re-telling of Katsu Kokichi's life to be rather bland and unnecessary for a publication. He glorifies his lack of worth ethic and also his lack of family honor all the while making himself sound like a saint at times.

Curricular Materials. This fully revised textbook will prove a comprehensive resource for teachers and students of East Asian Studies, history, culture, and anthropology.

Helen Hardacre, a leading scholar of religious life in modern Japan, examines the Japanese state's involvement in and manipulation of shinto from the Meiji Restoration to the present. Nowhere else in modern history do we find so pronounced an example of government sponsorship of a religion as in Japan's support of shinto. How did that sponsorship come about

Read Book Musuis Story

and how was it maintained? How was it dismantled after World War II? What attempts are being made today to reconstruct it? In answering these questions, Hardacre shows why State shinto symbols, such as the Yasukuni Shrine and its prefectural branches, are still the focus for bitter struggles over who will have the right to articulate their significance. Where previous studies have emphasized the state bureaucracy responsible for the administration of shinto, Hardacre goes to the periphery of Japanese society. She demonstrates that leaders and adherents

Read Book Musuis Story

of popular religious movements, independent religious entrepreneurs, women seeking to raise the prestige of their households, and men with political ambitions all found an association with shinto useful for self-promotion; local-level civil administrations and parish organizations have consistently patronized shinto as a way to raise the prospects of provincial communities. A conduit for access to the prestige of the state, shinto has increased not only the power of the center of society over the periphery but also the power of the periphery

over the center.

This is the first long-term analysis of the development of Japanese martial arts, connecting ancient martial traditions with the martial arts practised today. The *Historical Sociology of Japanese Martial Arts* captures the complexity of the emergence and development of martial traditions within the broader Japanese Civilising Process. The book traces the structured process in which warriors' practices became systematised and expanded to the Japanese population and the world. Using the theoretical framework of

Read Book Musuis Story

Norbert Elias's process-sociology and drawing on rich empirical data, the book also compares the development of combat practices in Japan, England, France and Germany, making a new contribution to our understanding of the socio-cultural dynamics of state formation. Throughout this analysis light is shed onto a gender blind spot, taking into account the neglected role of women in martial arts. The Historical Sociology of Japanese Martial Arts is important reading for students of Socio-Cultural Perspectives in Sport, Sociology of Physical Activity,
