Here are the steps to change the time and date on the NEC Electra phone system and the time on the NEC IPK. You can find the NEC Manuals here. Changing the time on a Electra Elite & Professional system must be done from the main phone, usually extension #100. From extension 100:

Designed as a textbook for undergraduate students in various engineering disciplines-Mechanical, Civil, Industrial Engineering, Electronics Engineer-ing and Computer Science-and for postgraduate students in Industrial Engineering and Water Resource Management, this comprehensive and well-organized book, now in its Second Edition, shows how complex economic decisions can be made from a number of given alternatives. It provides the managers not only a sound basis but also a clear-cut approach to making decisions. These decisions will ultimately result in minimizing costs and/or maximizing benefits. What is more, the book adequately illustrates the concepts with numerical problems and Indian cases. While retaining all the chapters of the previous edition, the book adds a number of topics to make it more comprehensive and more student friendly. What's New to This Edition • Discusses different types of costs such as average cost, recurring cost, and life cycle cost. • Deals with different types of cost estimating models, index numbers and capital allowance. • Covers the basics of nondeterministic decision making. • Describes the meaning of cash flows with probability distributions and decision making, and selection of alternatives using simulation. • Discusses the basic concepts of Accounting. This book, which is profusely illustrated with worked-out examples and a number of diagrams and tables, should prove extremely useful not only as a text but also as a reference for those offering courses in such areas as Project Management, Production Management, and Financial Management.

Telephoning in English is for professionals or trainee professionals in business, commerce and administration who need to make and answer phone calls. It is suitable for learners at the intermediate and upper-intermediate levels, and can be used in class or for self-study. The emphasis is on developing and consolidating practical telephone skills in a variety of interesting and relevant contexts. Activities range from message-taking and spelling practice to role play, providing learners with a comprehensive course in using the telephone in English. Second edition This has been fully revised and updated to take into account the most important recent developments in the world of telecommunications. It has also been redesigned at a larger format and in colour to make it easier to use for learners working on their own. The recorded material is available on an audio cassette set (2) or audio CD set (2).

A child explains what angers him and how he sometimes angers other people.
