Unlike traditional textbooks, New Venture Management is smart about introducing the most critical concepts without overloading readers with extraneous content. Unlike popular press books, New Venture Management is deeply grounded in quality research that extends far beyond the authors' personal war stories. In my view, this book is ideal for students who wants to both understand the key concepts and translate this knowledge into real-world skills for managing new ventures.'

Due to the 2008-2009 crisis, the United Nations 2030 agenda for sustainable development, and the COVID-19 pandemic, the role of entrepreneurship has become more critical in most economies. Moreover, emerging protectionist policies are further encouraging the emergence of new entrepreneurial projects, particularly to replace goods and services traditionally provided by other countries. Understanding current challenges and best practices in nascent entrepreneurship is integral for the successful launching of

Entrepreneur Roadmap program, and then some. While those entering traditional management positions within established companies might expect to find established customers, a degree of predictability, formalized procedures, and earnings that may be taken more-or-less for granted, new ventures often are launched into highly dynamic environments characterized by rapid technological change, inherent unpredictability, and an uncertain cash flow. Such ventures often require rapid growth to succeed. While new ventures offer those who initiate them a high degree of independence, excitement, and potential for great reward, they also bring high risk, stress, and greater potential for failure. Thus, it takes a special set of skills, techniques, and temperament to succeed. These skills, along with the potential risks and rewards and environmental settings and characteristics, are explored in the
