Council, First Aid: Taking Action covers the material required for a semester long Advanced First Aid course . The focus is teaching how to recognize and act in any emergency and to sustain life until professional help can arrive. Other information includes bleeding control, and first aid for sudden illnesses and injuries. Information is presented in a concise easy-to-read manner that works as a handy reference after the course. National Safety Council programs and products are designed to benefit all types of learning styles by combining lectures, video presentations, group discussions, and hands-on training.

First Aid, CPR, and AED Standard, Fifth Edition is the center of an integrated teaching and learning system that offers instructor, student, and technology resources to better support instructors and prepare students. The text includes:

- Coverage of the 2005 CPR and ECC Guidelines. Current information on injured and illnesses: Core information for first aiders presented in a clear and straightforward format.
- Skill Drills: Offer step-by-step explanations and visual summaries of important skills.
- Flowcharts: Reinforce the decision-making process and appropriate procedures.
- Decision Tables: Provide a concise summary of what signs first aiders should look for and what treatment steps they should take.

New edition of a standard reference revised every four to six years since 1946 (the previous edition was 1997). Intended for both novices and seasoned safety professionals, as well as managers, educators, and professionals in the fields of risk management, loss control, human resources, and engineering, who must formulate safety program goals and objectives. After introductory material, coverage is in sections on loss control information and analysis; safety/ health/ environment program organization, and program implementation and maintenance. The appendices provide sources of help, a bibliography, and answers to review
