Ontario Building Code, 2006.
This is a regulation under

Where To Download Ontario Code And

the Ontario Building Code Act, based to a large extent on the National Building Code of Canada, 2005. The Ontario Building Code was written to protect the public from injury due to building failure, and to

Where To Download Ontario Code And

address health and safety
requirements.

The Building Code sets out
technical requirements for
the construction (including

Where To Download Ontario Code And

renovation) and demolition of buildings, the change of use of existing buildings where the change would result in an increase in hazard and the maintenance and operation of on-site sewage systems. It is a set

of minimum provisions For

respecting the safety of
buildings with reference to
public health, fire
protection, accessibility
and structural sufficiency.
