Peter Leeds. Many excellent companies trade as penny stocks, and investing in those companies as they “grow up” to become bigger stocks can be extremely lucrative.

Unfortunately, penny stocks have been given a bad name among the investment community, and in some cases that negative reputation is well deserved.

Penny stocks, those with a price of less than five dollars per share, are likely to be companies that have fallen on hard times. Investors are signaling, through the price of the shares, that they have doubts the company will survive. If they did not have such doubts, the price of the stock would be higher.

have, penny stocks are for you!

The stock market has been a cornerstone of the investor's passive wealth-building program for over a century and continues in this role. This decade has been one huge roller coaster ride for stock investors. Fortunes have been made and lost. With all the media attention, all the talking heads on radio and television, and the books with titles like Dow at 36,000, the investing public still didn't avoid losing trillions in a historic stock market debacle. Sadly, even the so-called experts who understand stocks didn't see the economic and geopolitical forces that acted like a tsunami on the market. With just a little more knowledge and a few wealth-preserving techniques, more investors could have held onto their hard-earned stock market fortunes. Cheer up, though: This book gives you an early warning on those megatrends and events that will affect your stock portfolio. While other books may tell you about stocks, this book tells you about stocks and what affects them. This book is designed to give you a realistic approach to making money in stocks..... Stock Investing For Dummies, 3rd Edition, is also quite different from the 'get rich with stocks' titles that have crammed the bookshelves in recent years. It doesn't take a standard approach to the topic; it doesn't assume that stocks are a sure thing and the be-all, end-all of wealth building. In fact,

# Download Free Penny Stocks For Dummies

at times in this book, I tell you not to invest in stocks. This book can help you succeed not only in up markets but also in down markets. Bull markets and bear markets come and go, but the informed investor can keep making money no matter what. To give you an extra edge, I've tried to include information about the investing environment for stocks. Whether it's politics or hurricanes (or both), you need to know how the big picture affects your stock investment decisions.

THE APPETITE FOR PENNY STOCKS—stocks that trade for less than \$5 a share—is greater than it's ever been. Due to their potential for rapid change, these investments can be both lucrative and high-risk. Penny stocks that pass the proper analysis can quickly multiply in value, dramatically outperforming every other type of stock, including so-called "safe" blue chips. Exciting, original, and inspiring, *Invest in Penny Stocks* is the only book of its kind. The *Penny Stock Professional*, Peter Leeds introduces you to all the concepts needed to become a successful penny stock investor: risk-free paper trading, tactics of the pros, the best markets, effective due diligence, and much more. He also reveals his 29-point Leeds Analysis, which uncovers the absolute best small companies with strong management teams, great upside potential, proven revenues, patented technologies, and rock-solid

# Download Free Penny Stocks For Dummies

fundamentals. These premium penny stocks are more likely to outperform, and less likely to suffer downside price moves. Packed with nearly twenty of Leeds' favorite trading tactics and over forty real company trading charts, *Invest in Penny Stocks* can quickly help anyone become a successful trader. Using methods of fundamental and technical analysis developed over many years, Peter Leeds is consistently able to discover value in companies that others can't see. With *Invest in Penny Stocks*, he shows you how to take advantage of the opportunities that everyone else is missing.

You can learn trading penny stocks from the masses and become part of the 90% of traders who lose money in the stock market, or you can learn from the Best. manage your risk and the tools that will help you become profitable. Along the way, you'll learn strategies and techniques to become consistent in your gains and develop your own trading techniques. What's inside: - Managing expectations and understanding the market, - Understanding the psychology of trading and how it affects you, - Learning the basics of day trading, - Learning the mechanics of trading penny stocks, - Risk management and how to take safe positions, - How to trade through advanced techniques - Developing your own profitable trading strategy - Real world examples and case studies No prior trading experience is required.

The penny stock market is one of the most misunderstood markets in the world. So many people enter this market with little knowledge but the skill set, trading tools, and other necessities that are required to be successful. Everyone imagines that having heard of someone who made thousands of dollars in a few weeks, and naturally, they want to do that too. The fact of the matter is that many people can make money in a relatively short period of time which is the major benefit of these classes to help you, and it doesn't take a ton of money to get started. I can tell you from experience that when you make your first profitable trade, that's not a better feeling in the world, but I must warn you that there's no profit in not profiting. It's important in the penny stock market if you don't get the right quick
